WHAT IS MULLAN?

Nestled in the lush heartlands of Ireland, north of Monaghan town through Emyvale, lies Mullan Village. The name "Mullan" comes from the Irish word "an muileann", meaning "the mill".

Established in the 1840's, Mullan has always been a hive of creativity and craftsmanship. Over the years, the mill has served various purposes, from a flax mill to a boot factory, and now it houses Mullan Lighting. Today, Mullan continues its legacy of craftsmanship, producing bespoke and tailored light fixtures, symbolizing quality, durability, and good value.

DIRECTORS, MIKE AND EDEL TREANOR

WHY LIGHTING?

Lighting shapes our environments and influences our mood, productivity, and overall well-being.

Founded in 2009 by Mike Treanor, our mission has been to craft high-quality, durable lights that are both functional and aesthetically pleasing. Together, Mike and his wife Edel have driven our commitment to excellence, innovation, and unique design. We pride ourselves on exceptional customer service and clear communication, ensuring our clients receive the best lighting solutions.

Lighting is more than just illumination; it's about creating spaces that inspire and comfort.

A flax mill, with its associated mill race and workers' cottages, is developed on the site in Mullan village. The mill remained operational until the early 20th century.

c1850

The shoe factory closes. The nearby border road also closes due to The Troubles in Northern Ireland. The factory would lie idle for the next 30 years. By 1990 most of the mill cottages are abandoned and the village is all but deserted.

1978

Mullan Lighting expands its product range from traditional pub and church lighting to vintage and industrial-style lighting. The company begins to export to the United Kingdom.

2012

1922

A shoe factory is established in the old mill and Mullan Village is once again a bustling rural center. The factory employed over 80 people at its height and manufactured the Mill Brand and the Border Brand footwear.

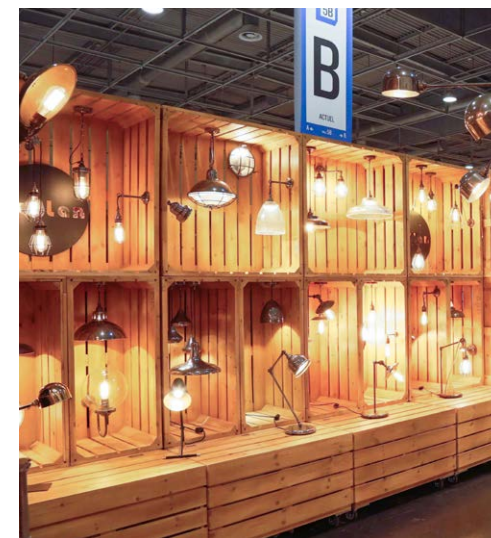

2009

Mullan Lighting is established by Mike Treanor inside the old mill building. At the same time the mill houses in the village are faithfully restored and life is brought back to Mullan once more.

2013

Mullan Lighting attends its first international trade show, MAISON&OBJET, in Paris. Subsequent trade shows in Germany, Stockholm and the United Kingdom help establish the Mullan Lighting brand across Europe.

Mullan Lighting's product quality and speed of manufacture becomes recognized more and more. We become the choice lighting supplier for Costa Coffee, Hilton Hotels, the Hard Rock Cafe and Superdry retail stores.

2015

Mullan Lighting completes the manufacture of dozens of bespoke light fixtures for the iconic Café en Seine in Dublin, Ireland. We continue to invest in product development and to expand our range of decorative light fixtures.

2018

The Mullan Ceramics brand is launched. Our range of ceramic lighting grows as our in-house ceramicists focus on new designs, finishes and textures.

2021

2017

Mullan Lighting, now with 60 employees, completed a major outdoor decorative lighting project in Dubai. This spurred our R&D and we greatly expanded our outdoor and bathroom fixtures range.

2019

The Mullan Lighting team of experienced designers and craftspeople - many of whom live in the restored mill houses of Mullan Village - continues to grow and develop.

2025

With over 100 skilled team members, Mullan lighting continues to grow. A new expansion is planned with increases to our product ranges and manufacturing capacity.

CUSTOMER FIRST

We listen. Our lead times are 2-3 weeks for standard fixtures and 6-8 weeks for bespoke items. Everything is made to order here in our factory in Mullan Village. If it's urgent, let us know — we're here to help, not hinder.

We have no minimum order quantities. Come to us for a single light, or for a thousand - all backed by our five-year guarantee. During business hours, we aim to reply within two hours.

SUSTAINABILITY

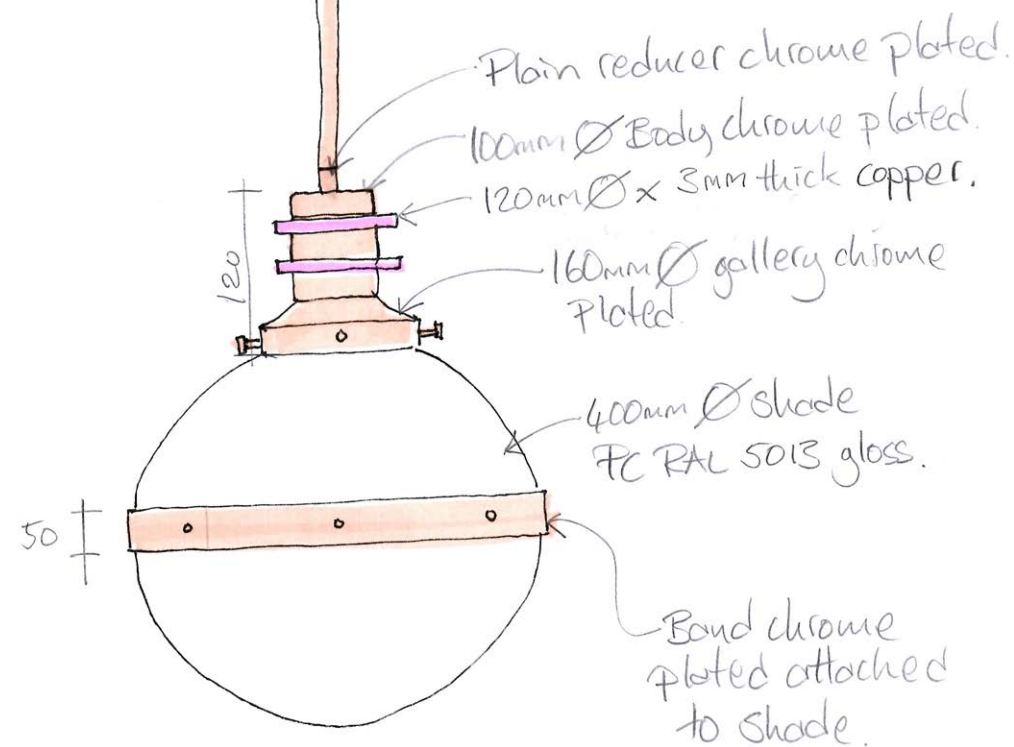

Mullan Lighting is committed to sustainability by reducing energy consumption, minimizing waste, managing water and air quality, and promoting the use of sustainable materials. We ensure compliance with Irish and EU regulations, continuously improve our environmental performance, and engage our team and suppliers in our green initiatives.

FROM THOUGHT TO FIXTURE

Our in-house design team has the skills to transform vision into reality. This capability allows us to continually improve, expand, and develop our standard range of fixtures. Tailor-made isn't just an option; it's our specialty. Whether it's indoor, outdoor, bathroom, or living room, we work with you to find the perfect balance between form and function.

We're not limited to lights, either. We've made bar gantries, decorative fretwork panels, trophies, gates and even a foot-bridge. This manufacturing flexibility allows for consistency in finish across an entire project.

CRAFTSMANSHIP

Mullan Lighting continues to champion craftsmanship by manufacturing in-house, ensuring precise quality control. This dedication to local talent and manufacturing resonates with consumers who value authenticity and quality. The village's revival has brought craftspeople back, transforming Mullan into a vibrant community.

WHERE CREATIVITY MEETS METAL

We're the maker. Our factory is in Mullan Village, Ireland, where we do everything from designing this booklet to manufacturing our lights.

Our standard lights serve as a canvas for your creativity. Customize any standard fixture to suit your needs by choosing colors, glass types, plug options, pull cord switches, shade shapes, suspension types (solid bar, chain, or cable and catenary wire), and drop heights.

For those who want to go beyond, our bespoke service allows your imagination to run wild. We embrace unique designs and bold ideas, crafting lighting solutions that are truly one-of-a-kind. Whether it's brass, glass, marble, alabaster or timber, we can make it a reality.

BESPOKE PROJECTS

Our bespoke projects range from private residences to collaborations with renowned global brands. Regardless of scope or size, each project is uniquely interesting. We're well equipped to meet the challenge head-on! We take pride in transforming ideas into reality, crafting lighting solutions that are as functional as they are beautiful. The only limit is your imagination.

Our collaborative approach ensures each piece meets and exceeds expectations, providing both functional illumination and aesthetic enhancement. By working closely with our clients, we create lighting designs that truly reflect their vision and style.

BESPOKE PROJECTS

BY ATELIER ZURICH

VILLA ROSAU

Zurich, Switzerland

In the prestigious Villa Rosau in Zurich, Switzerland, our custom lighting project features stunning fixtures adorned with golden ginkgo leaves. The high ceilings of the dining room are graced by grand chandeliers, meticulously constructed so that the ginkgo leaves encircle the fixture, casting light both upwards and downwards.

This thoughtful design ensures a balanced and luxurious illumination that enhances the room's elegant atmosphere.

Additionally, the wall sconces, each crafted with a single ginkgo leaf, disperse a warm golden glow across the room, complementing the chandeliers. Together, these custom fixtures create a cohesive lighting scheme that bathes the dining room in a gentle, golden light, perfect for fine dining experiences. The combination of ambient and direct lighting, facilitated by the ginkgo leaf design, adds a touch of nature-inspired elegance to the space.

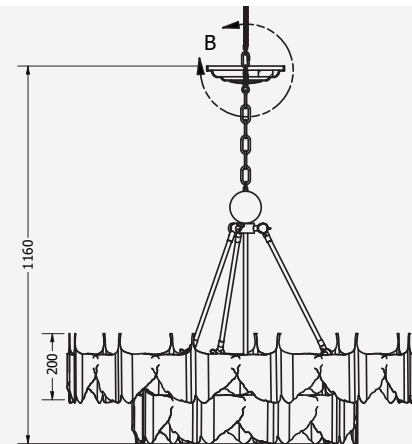

Ginkgo Leaf Wall Sconce

Size: 19x26x4" / 48x66x10cm (HxWxD)

Light Bulb Base: E26 / E27 x2

Ginkgo Leaf Chandelier
Size: 46x44" / 116x112cm (HxD)
Light Bulb Base: E26 / E27 x8

BY KAI INTERIORS

HYATT REGENCY HOTEL

London, England

The custom lighting at Churchill Bar features opal glass spheres encased in an open lattice of brass. These elegant fixtures are combined with lush green plant life, creating a harmonious blend of clean lines and organic elements.

This design enhances the bar's sophisticated and welcoming atmosphere, reflecting a balance between modernity and nature.

Suspended from the ceiling, these fixtures support cascading leafy green plants, adding a touch of natural beauty to the clean, structured design. The antique brass finish matches the cooler tones of the décor, while the greenery complements the room's emphasis on plants. The blue and green tones provide a relaxing feel, echoing the calming colors of nature amidst the bustling heart of London.

Globe Pendant

Size: 58x24" / 147x61cm (HxD) | Light Bulb Base: E26 / E27 x1 | Material: Polycarbonate, Brass

BY STUDIO EMMA ROUX

CAFÉ GEORGETTE

Paris, France

Café Georgette features a custom ceiling light comprising large rounded rectangles of neon, suspended by matte black arms. The central rectangle is perpendicular to the others, creating a dynamic visual effect. The aim was to enhance the room's aesthetic, which includes tall mirrors and arched wall sections, accentuating the design and color palette without overwhelming it.

The ambient lighting provided by this installation creates a cohesive and inviting atmosphere, highlighting the café's vibrant décor and unique charm.

The combination of horizontal rectangles at different heights, and a central rectangle with more squared corners, creates a layered and structured look. This installation enhances the room's aesthetic without overshadowing it, providing a soft, ambient glow that complements the vibrant colors and design elements of Café Georgette.

Neon Light

Size: 25x110x55" / 63x280x140cm (HxWxD) | Material: Steel, Neon

BY MILLIMETRE DESIGN

CAFE EN SEINE

Dublin, Ireland

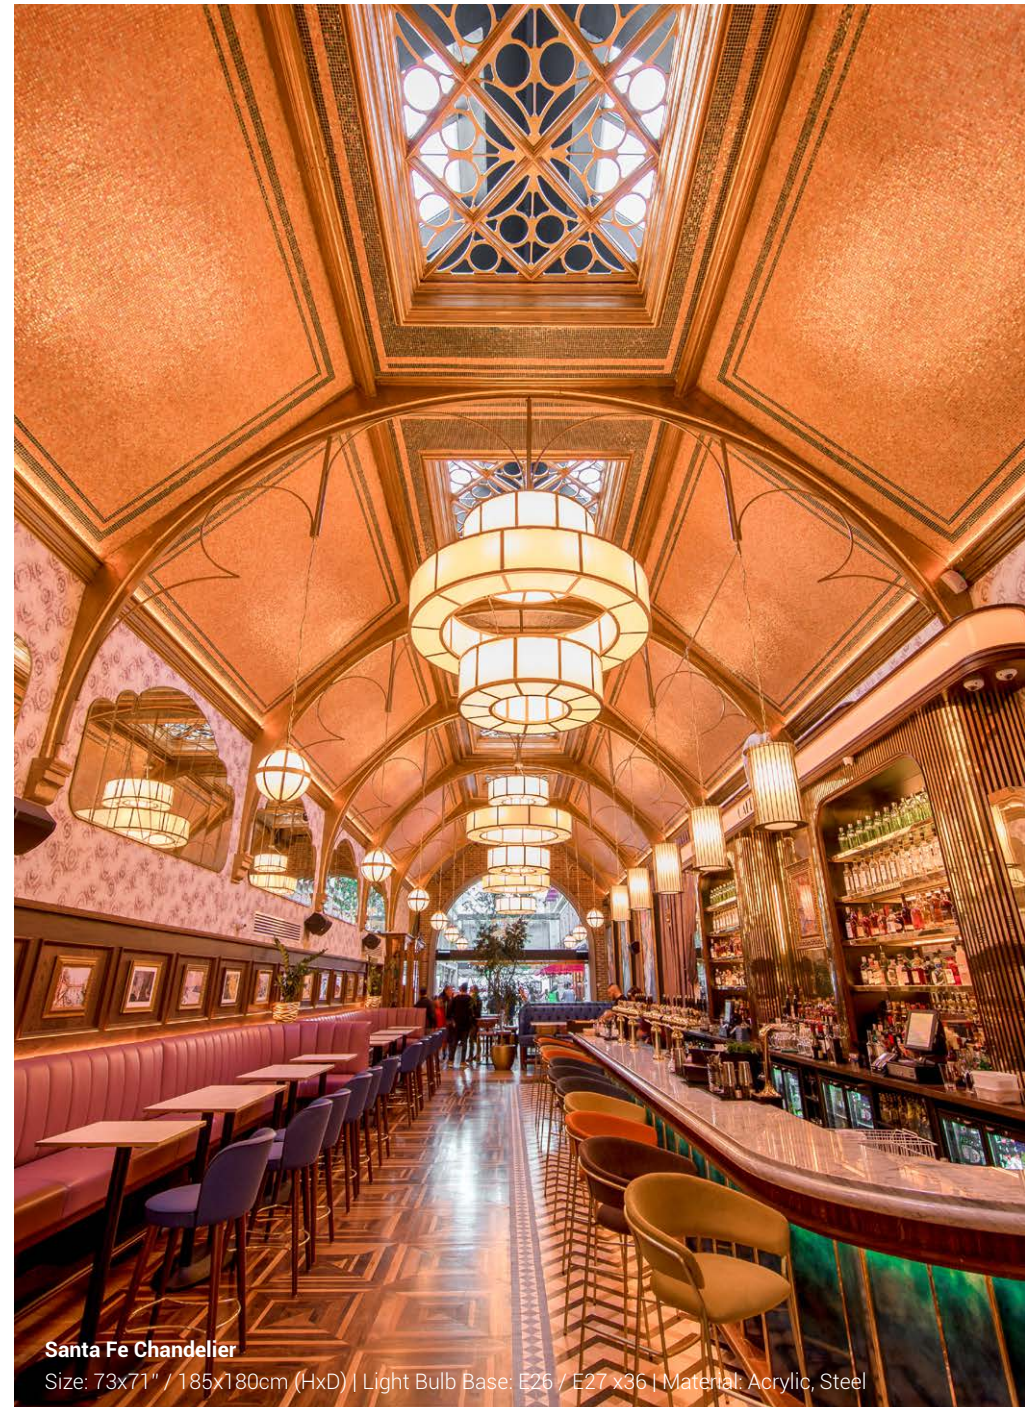

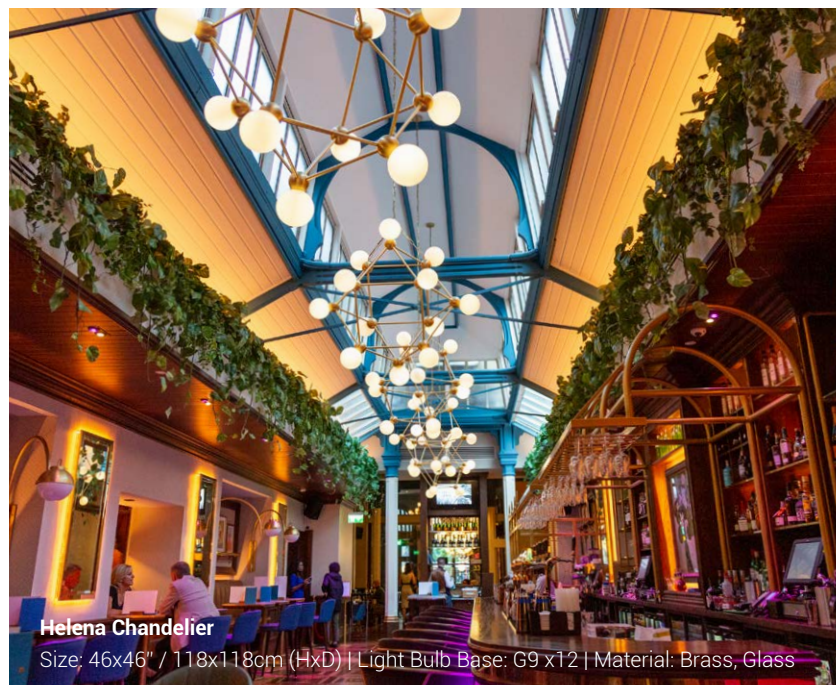

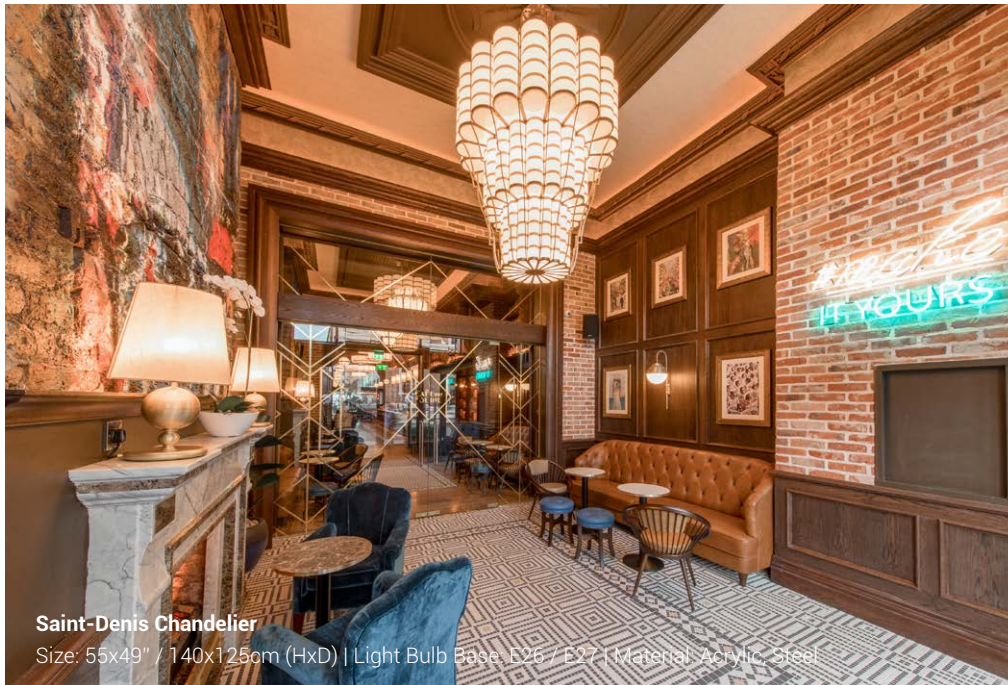

In this lighting project for Café en Seine in Dublin, the custom lighting fixtures draw inspiration from Art Deco design, creating a cohesive and visually striking ambience. A prominent feature is the large, custom-made fixture that spans the length of the bench seat, suspended by catenary wire, giving the illusion of floating. This fixture includes the café's name along its edge and integrates chandeliers with opal glass globes on polished brass arms in various angles, blending straight lines, curves, and angles to produce a captivating and gentle ambient light.

Additionally, the space is adorned with two different designs of chandelier, both art-deco inspired. These fixtures collectively contribute to a well-thought-out lighting aesthetic that enhances the café's luxurious and sophisticated décor.

Statement Canopy with Integrated Chandeliers

Size: 19x335x59" / 48x850x150cm (HxWxD) | Light Bulb Base: E26 / E27 Festoon | Material: Acrylic, Steel, Wood

BY LEISURE INFORMATION SERVICES

THE MONTENOTTE HOTEL

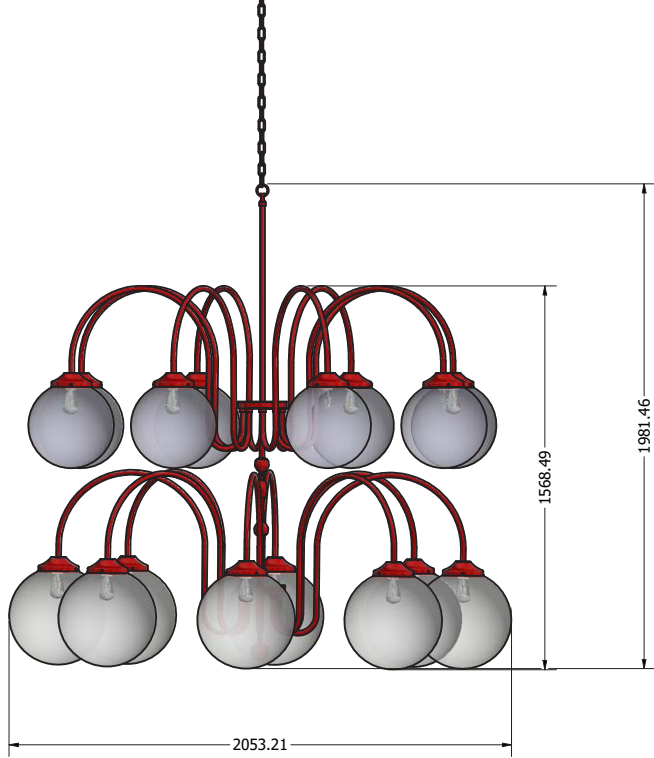

Cork, Ireland

Custom lighting fixtures were developed based on detailed 3D renders provided by the hotel's design team. Mullan Lighting worked meticulously to ensure that the final products met the exact specifications and aesthetic vision of the venue. This collaborative process involved multiple iterations and close communication, demonstrating Mullan Lighting's commitment to delivering customized solutions that align perfectly with client needs.

The custom lighting at The Montenotte Hotel exemplifies how tailored lighting solutions can transform a space. The 8+8 chandelier and Turku table lamps not only fulfill functional lighting requirements but also contribute significantly to the hotel's distinctive character and charm. The result is a beautifully illuminated environment that enhances the guest experience and underscores the hotel's commitment to high-quality design and craftsmanship.

THE DEAD RABBIT

New Orleans, United States

This custom chandelier, created for The Dead Rabbit in New Orleans, showcases the craftsmanship and creativity that define our bespoke projects.

Adorned with moss and ivy, the chandelier creates a captivating focal point, casting a soft, inviting glow that enhances the cozy, intimate ambience of The Dead Rabbit. The integration of natural elements, like the plants hung around the fixture, further adds to the organic atmosphere. This unique lighting piece harmonizes beautifully with the stone and wood interior, contributing to the rustic elegance of the space. Matching pendants extend this cohesive design throughout the area, reinforcing the natural and handcrafted aesthetic.

Featuring meticulously handcrafted ceramic domes, each piece is pressed into handmade molds using locally sourced clays.

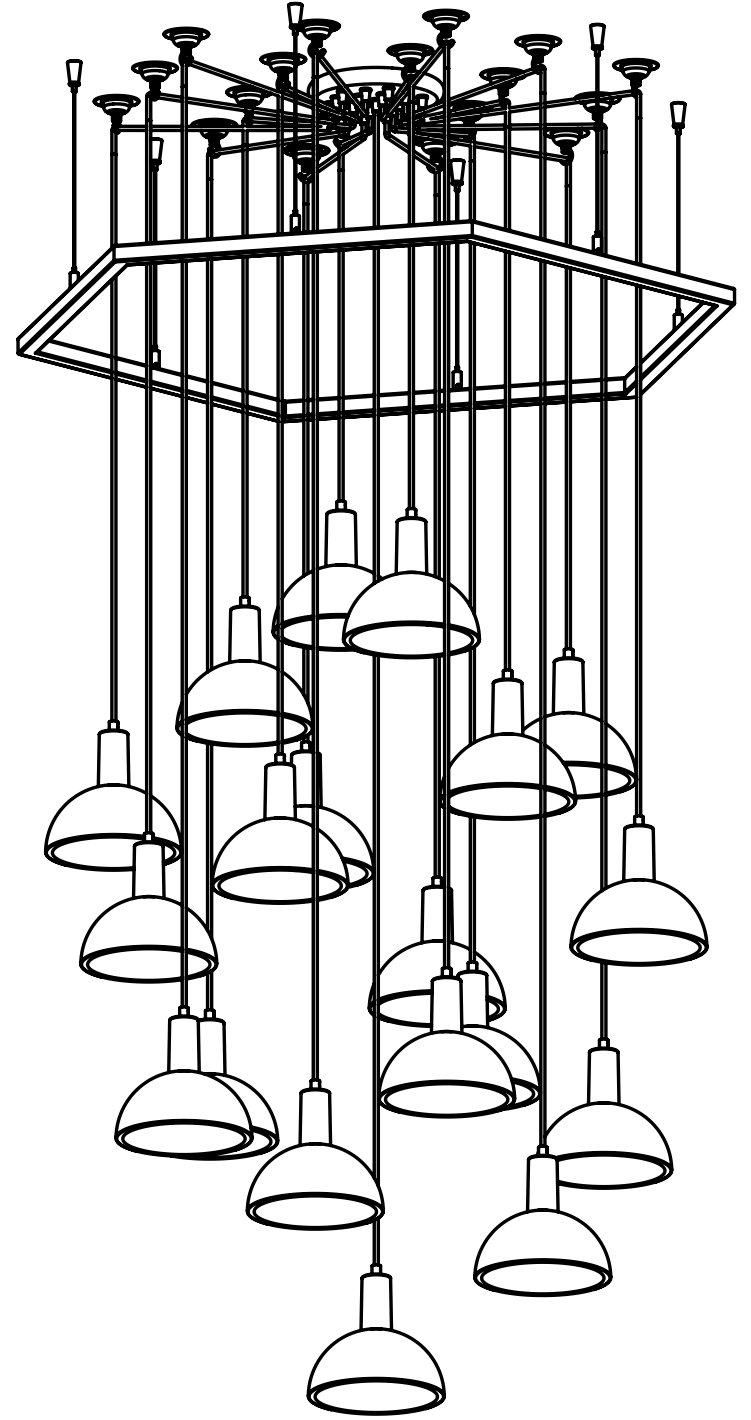

Ceramic Chandelier

Size: 79x37" / 200x95cm (HxD) | Light Bulb Base: E26 / E27 x19 | Material: Ceramic, Brass

DECK BRASSERIE

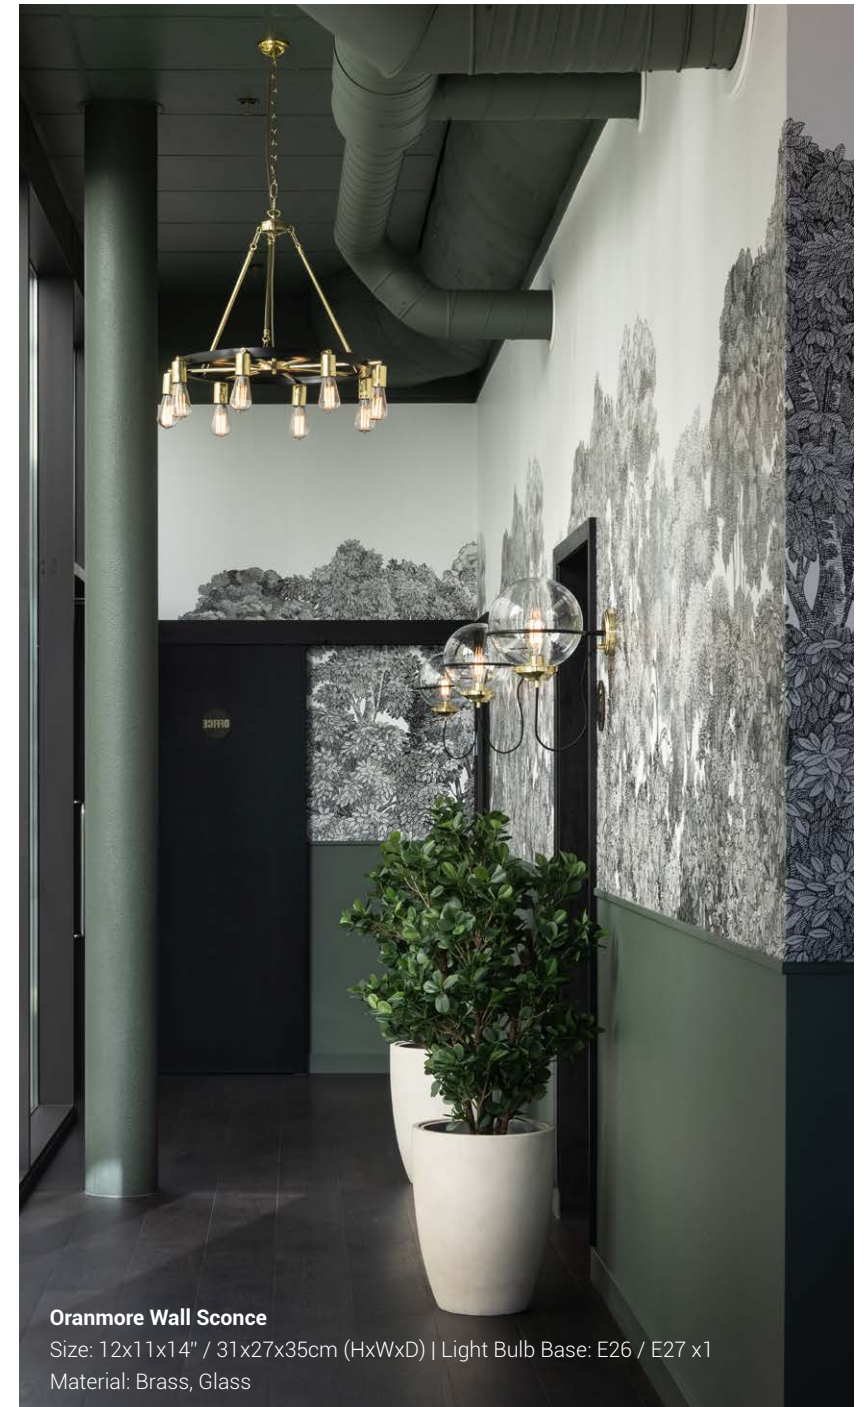

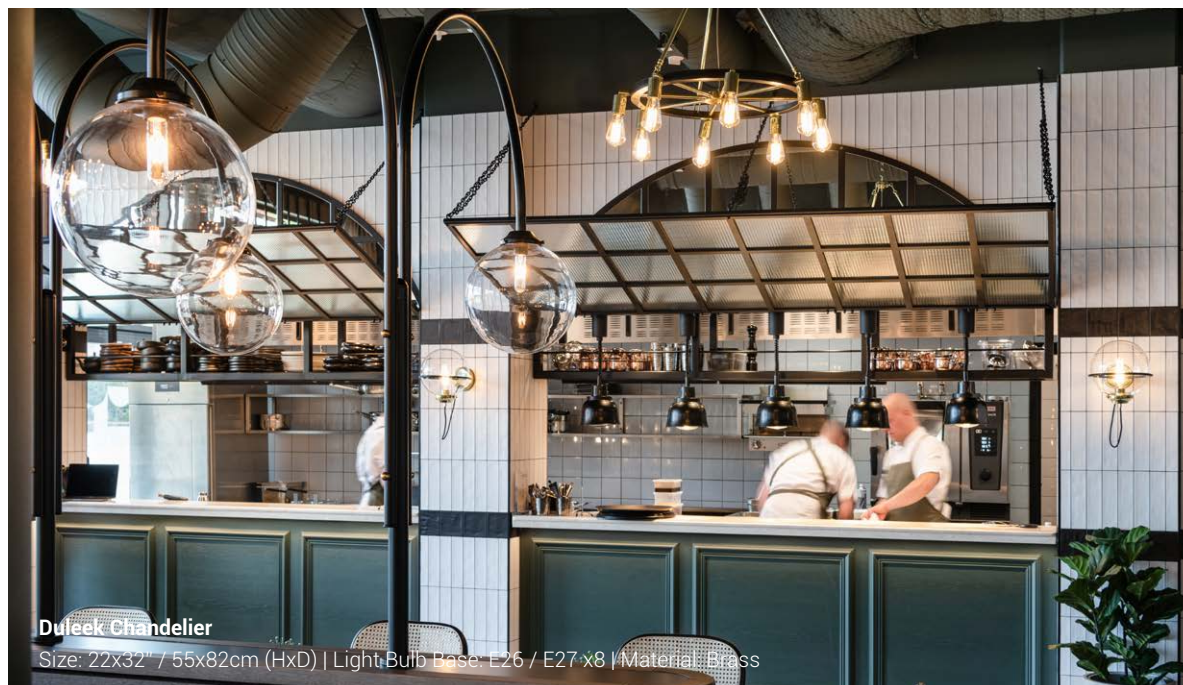

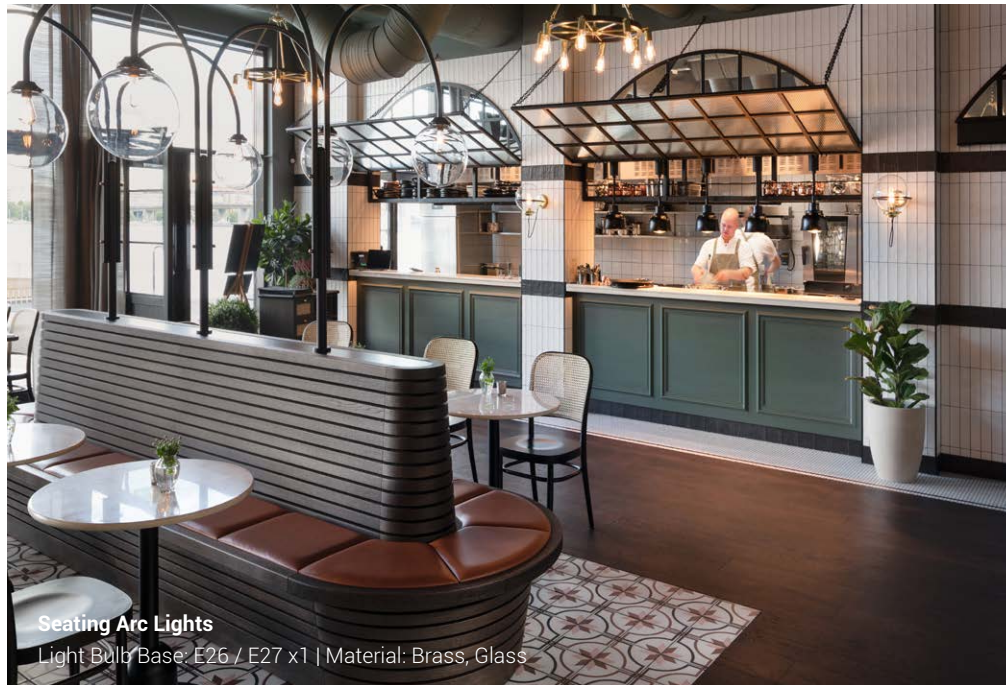

Stockholm, Sweden

DECK Brasserie combines standard lights with tailor-made options to create a sophisticated and cohesive design. They include the Oranmore wall sconce in polished brass with a black powder-coated band around a glass sphere, and the Duleek chandelier, a black ring-shaped fixture with bare bulbs mounted on polished brass joints. Custom pendants above the bar feature design elements from the Oranmore, supported by specially shaped brass mounts.

Innovative custom table lighting includes glass globes suspended on geometric curved arms, mounted to the backrest of the fixed seating. This design is interspersed with bare bulb spoked chandeliers and pendants featuring small brass shades, ensuring a perfect blend of atmospheric and task lighting.

© Lasse Olsen

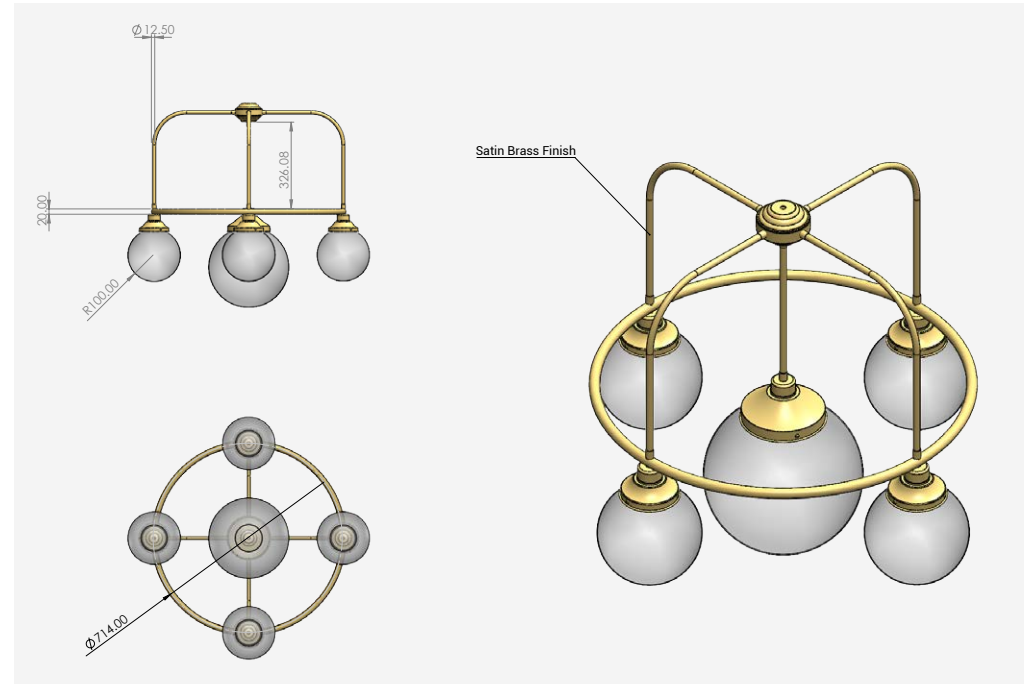

THE IVY COLLECTION

Exeter, England

The chandeliers in The Ivy Collection beautifully complement the Victorian-inspired floral décor. These custom fixtures are crafted from satin brass, featuring two tiers, each connected by a brass ring. The central opal glass globe includes a satin brass band around its circumference, adding a touch of elegance to the design. This combination creates a cohesive and luxurious atmosphere, enhancing the overall aesthetic of the dining space.

The satin brass and opal glass elements harmonize with the lush greenery and vibrant patterns, casting a warm and inviting glow. The chandeliers are suspended elegantly, providing a sophisticated touch that works brilliantly with The Ivy Collection's décor. These custom fixtures demonstrate how lighting can be tailored to complement specific design themes, contributing significantly to the ambience and character of the space.

Chandelier

Size: 36x26" / 91x65cm (HxD) | Light Bulb Base: E26 / E27 x9

CLAYMORE OFFICES

London, England

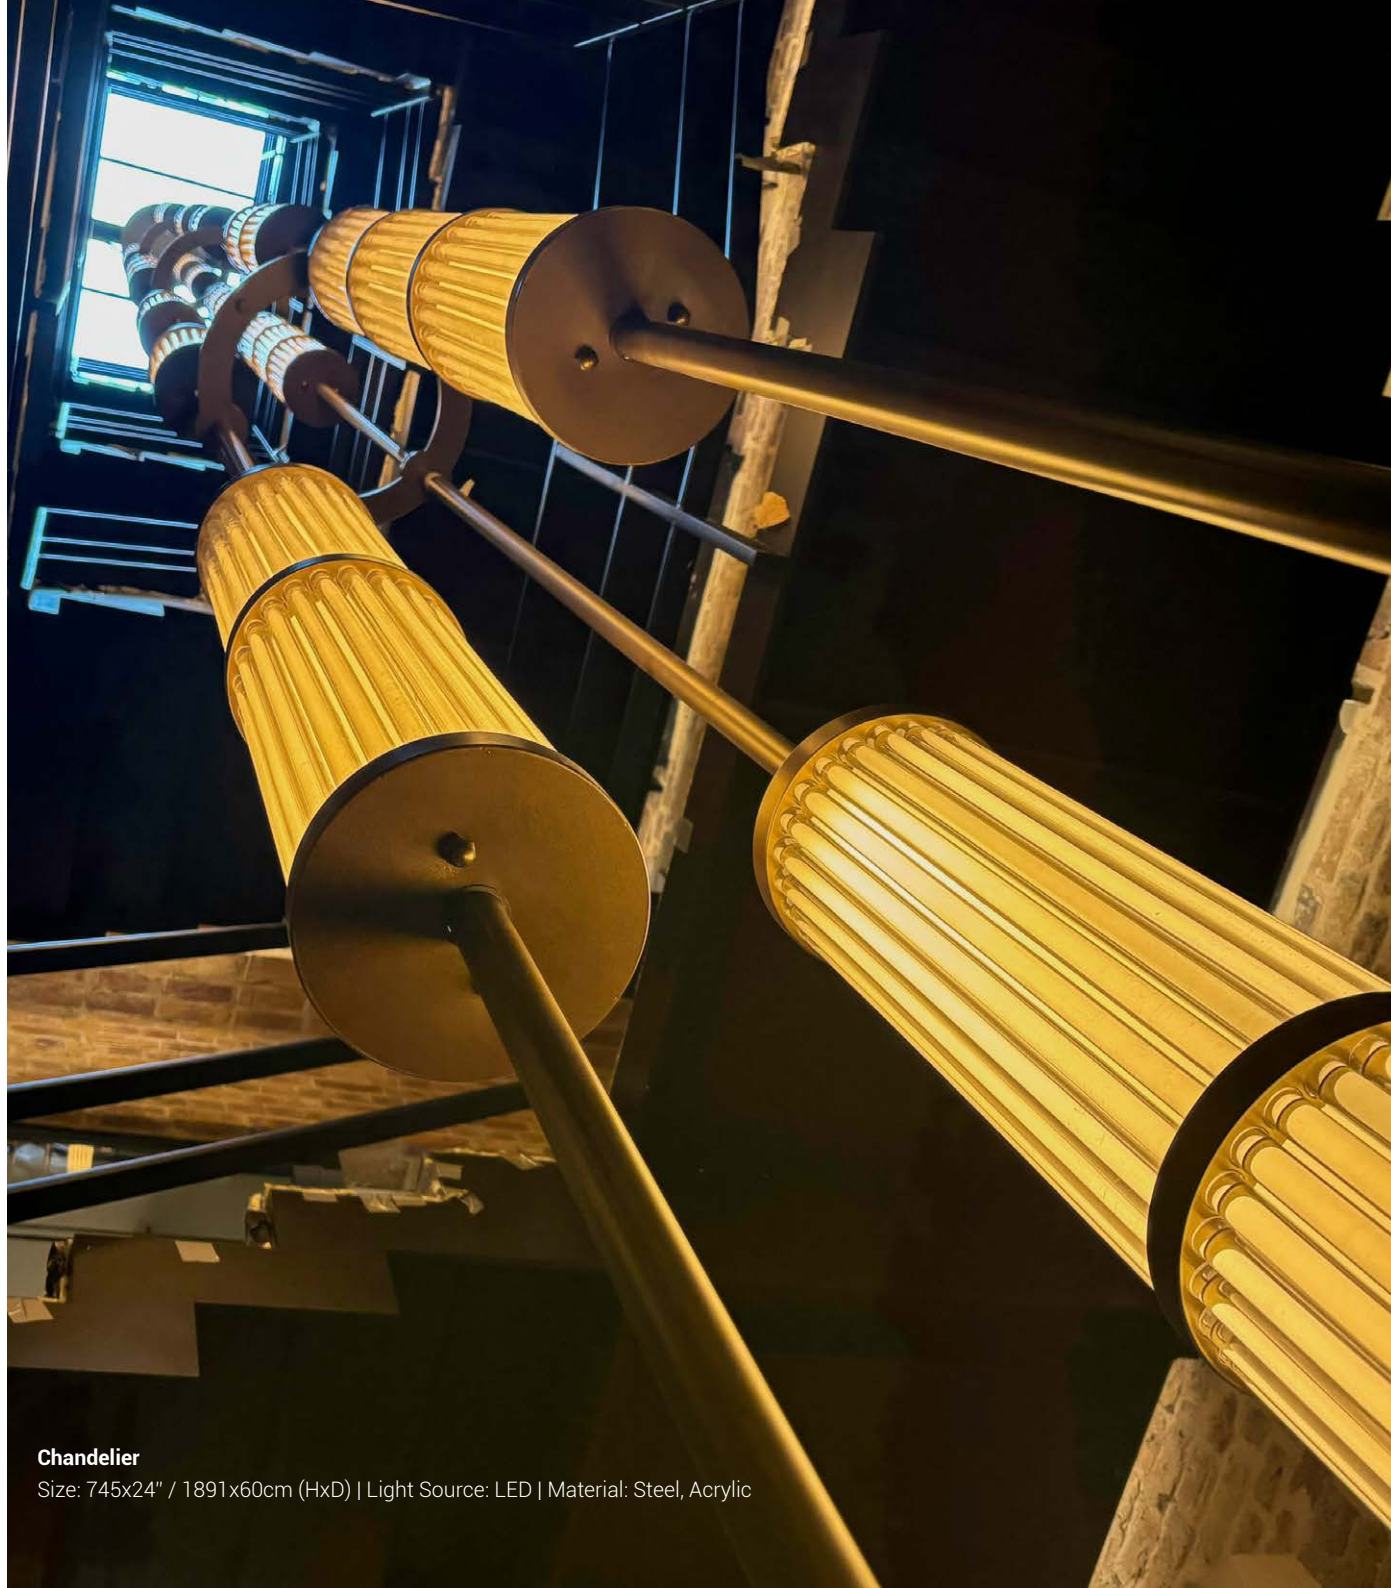

The first fixture is an impressive 18-meter-long light installed in a stairwell, serving as a primary light source spanning multiple floors. Constructed in sections for ease of transport, this fixture features opal diffusers encased in clear rods that scatter and diffract light, creating a warm and inviting glow. Finished in bronze, it adds a touch of elegance to the vertical space.

Another highlight of this project is a pair of fixtures – one ceiling-mounted and one mounted on a pillar. These fixtures consist of multiple opal tubes that gently diffuse light, capped with flush-fitting bronze-finished metal that connects the supporting arms.

We also created a linear uplight that diffuses light against a rattan shade, reflecting organic warmth into the room. Supported by two solid arms, this fixture combines natural materials with beautiful, modern design.

Chandelier

Size: 745x24" / 1891x60cm (HxD) | Light Source: LED | Material: Steel, Acrylic

Chandelier

Size: 32x68" / 81x173cm (HxD) | Light Source: LED Tape

Material: Rattan, Steel, Acrylic

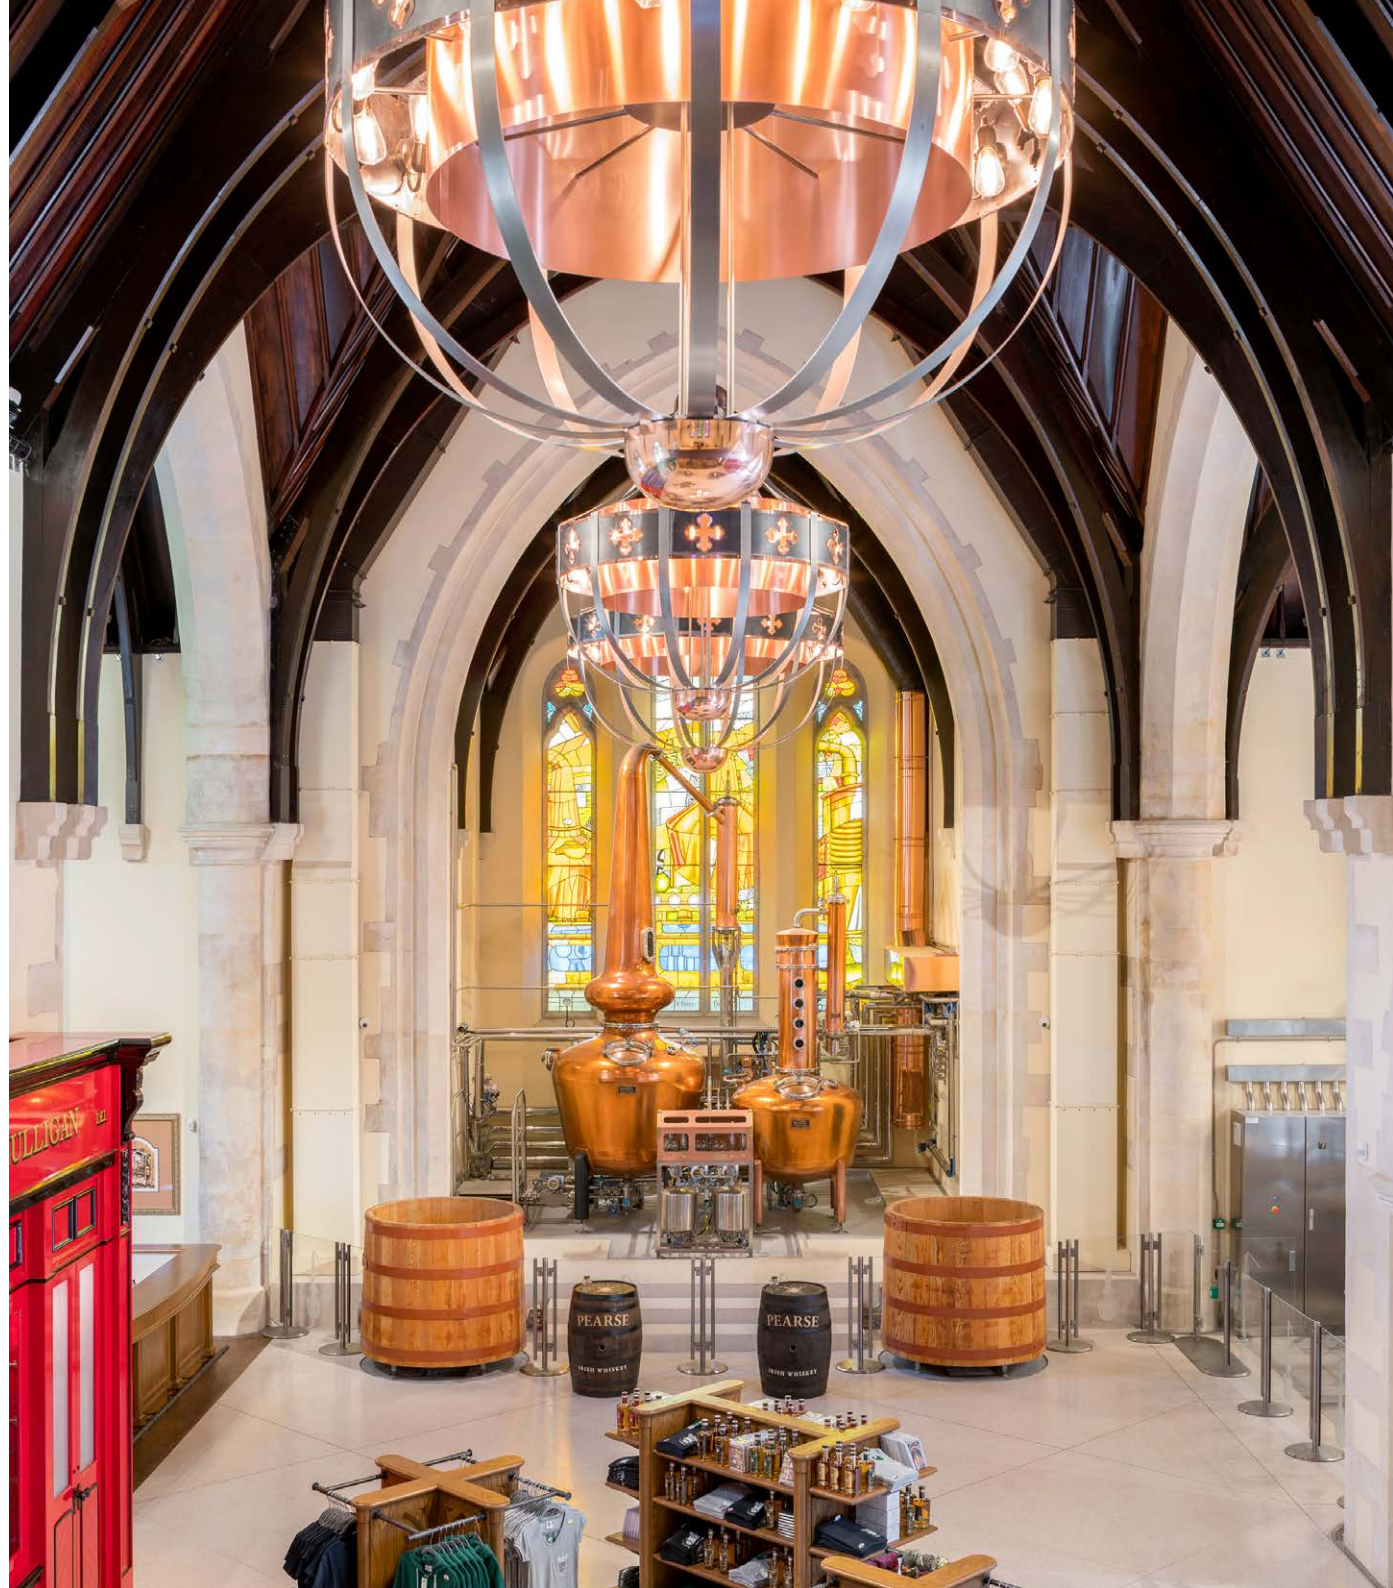

PEARSE LYONS DISTILLERY

Dublin, Ireland

Pearse Lyons Distillery, housed in a beautifully restored church in Dublin, features custom chandeliers designed to honor the building's heritage. The chandeliers are crafted from steel and copper, with intricate crosses cut out, symbolizing the building's past as a place of worship. The chandeliers have metal bands arching down to a copper dome suspended below, providing an ornate and Gothic design that matches the architectural elements of the space.

These chandeliers not only serve as a functional light source but also as a decorative element that complements the Gothic architecture of the space. The copper interiors reflect light beautifully, adding warmth and depth to the distillery's atmosphere, making it a truly unique and memorable space.

BY HARCOURT ARCHITECTS

SHELBOURNE SOCIAL

Dublin, Ireland

Shelbourne Social, a renowned restaurant in Dublin, features custom pendant lights that bring an elegant touch to its sophisticated décor. These custom lighting fixtures are opal glass globes suspended from solid brass bars, providing a striking visual appeal. Each globe is framed with polished brass, adding a touch of luxury and refinement to the overall design. The brass frames include a wide band around the center, laser-cut with the Shelbourne's name, allowing light to pass through and creating a unique and captivating lighting effect.

The construction of these lights is as functional as it is beautiful. The globes are suspended by a short length of chain that connects to the brass bar that not only allows for a degree of movement but also reduces the mechanical force exerted on the bar, ensuring the longevity and stability of the fixture.

Globe Pendant

Size: 15x12" / 38x31cm (HxD) | Light Bulb Base: E26 / E27 x1

Material: Brass, Glass

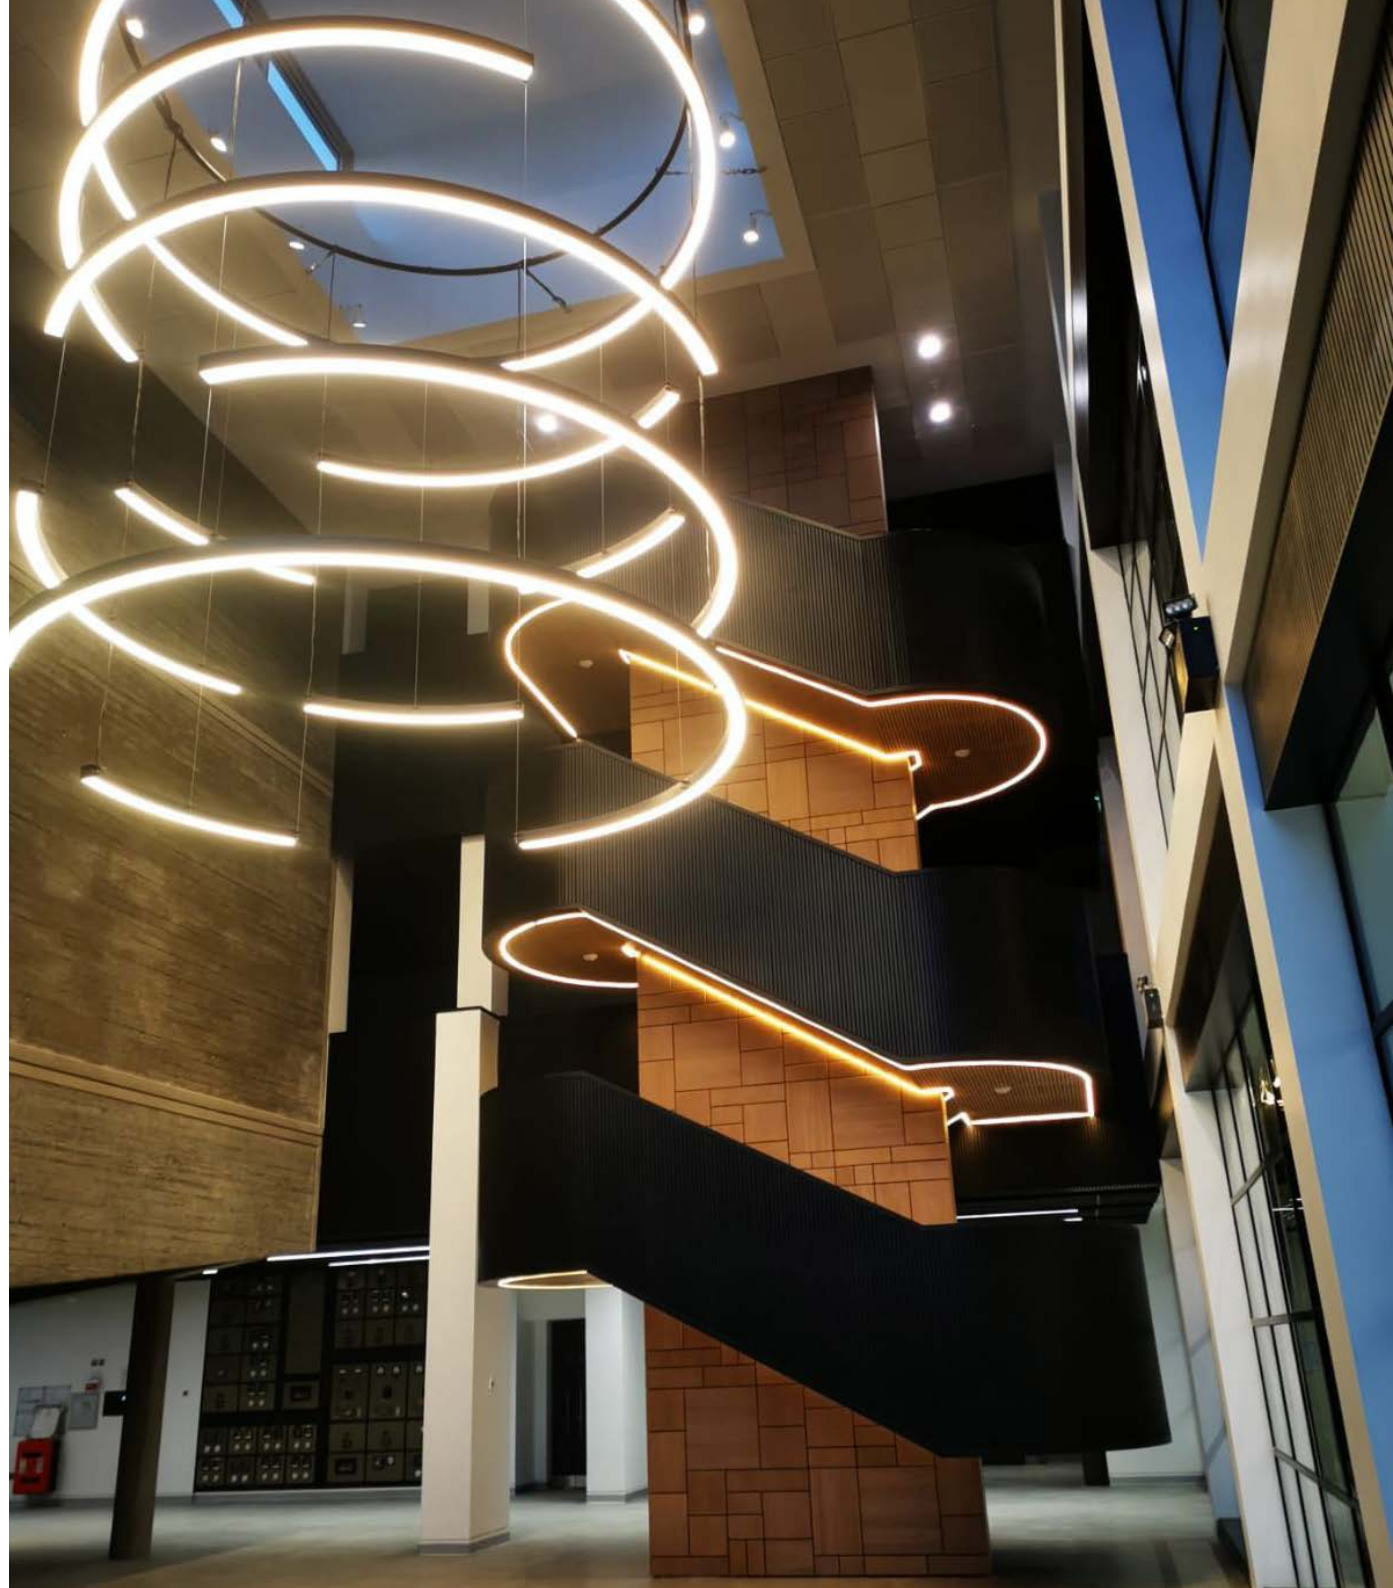

BY REDDY A+U

BREWHOUSE

Kilkenny, Ireland

In the Brewhouse project in Kilkenny, Ireland, the large multi-floor lobby is adorned with an impressive light sculpture. This installation consists of circular sections arranged as broken rings, creating a striking visual of a futuristic tunnel. These rings are suspended vertically from each other, forming a continuous yet segmented design that reaches down 5.5 meters (18 feet) with a diameter of 4.4 meters (14.4 feet). The suspended rings provide a captivating centerpiece, blending modern aesthetics with functional illumination.

Each section of the light sculpture is carefully crafted to maintain uniformity and balance, ensuring that the overall structure remains visually cohesive while providing ample lighting. The vertical arrangement of the rings creates a dynamic interplay of light and shadow, enhancing the architectural features of the lobby.

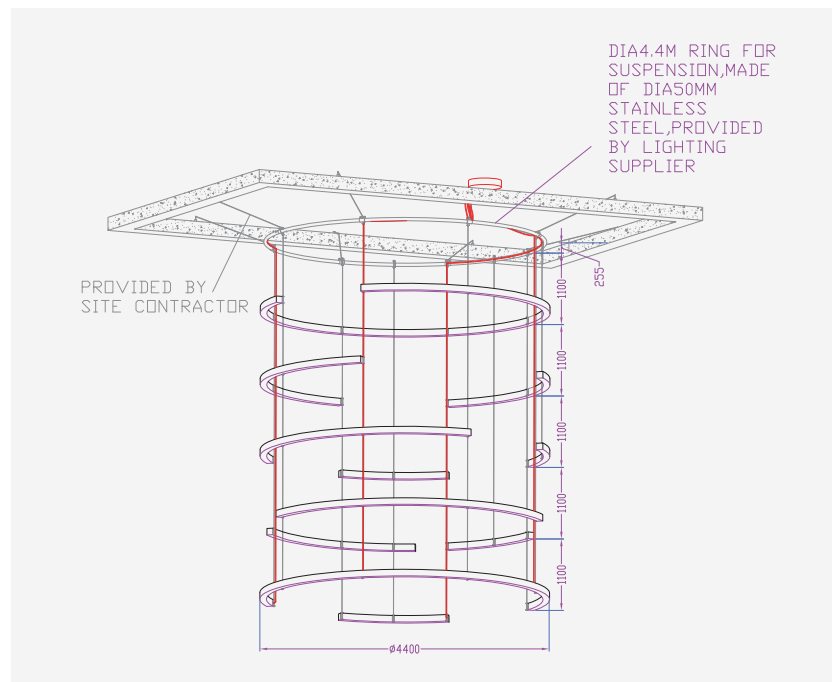

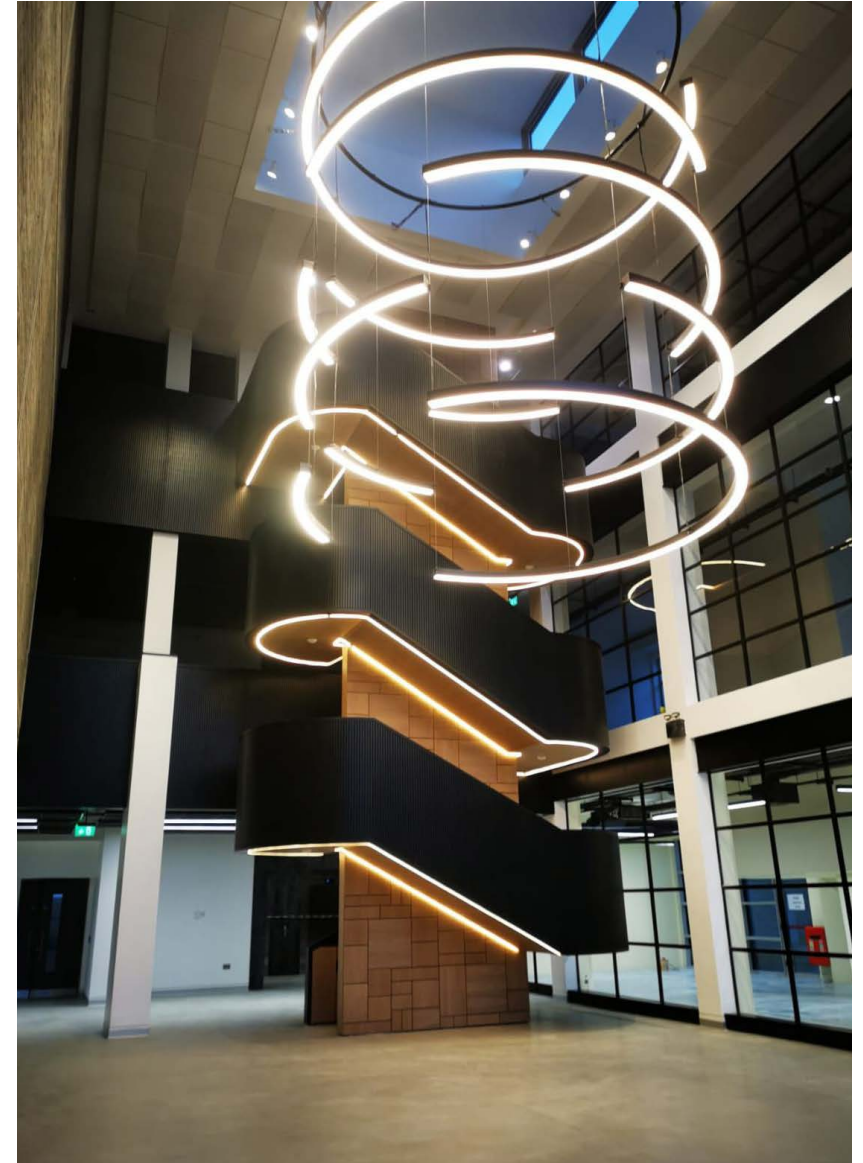

Circular Chandelier

Size: 217x173" / 550x440cm (HxD) | Light Source: LED Tape

Material: Aluminum

CUSTOM CERAMIC LAMPS

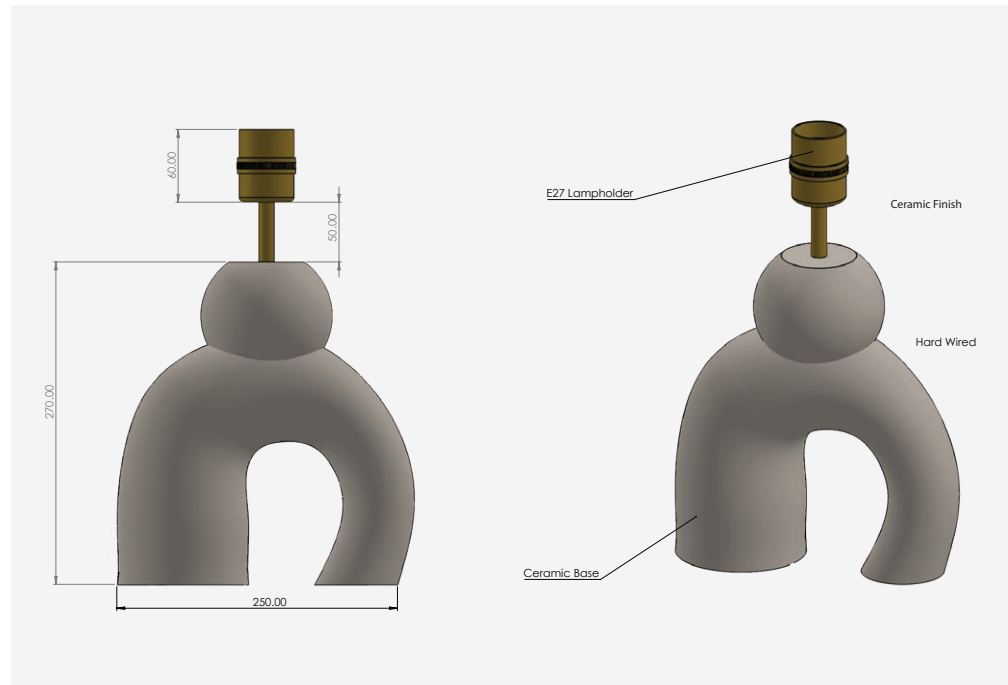

Stockholm, Sweden

For this project in Stockholm, we handcrafted tall, yellow-glazed table lamps featuring dynamic curves and petal-like lampshades. This design adds depth and elegance, making it a standout piece in the interior décor.

The second lamp showcases an abstract shape with two 'legs' and a brass lamp holder. Inspired by the 1970's lava lamps, its muted earthy finish gives it a modern artistic appeal, blending nostalgia with contemporary design.

The final lamp is a cylindrical wall sconce with a concave surface and an opal glass globe. This piece offers a bold yet minimalist design, serving as a subtle yet important element in the room's overall décor. Each lamp is meticulously handmade, ensuring unique character and craftsmanship.

Ceramic Table Lamp
 Size: 54x20" / 136x50cm (HxD) | Light Bulb Base: E26 / E27
 Material: Ceramic, Fabric

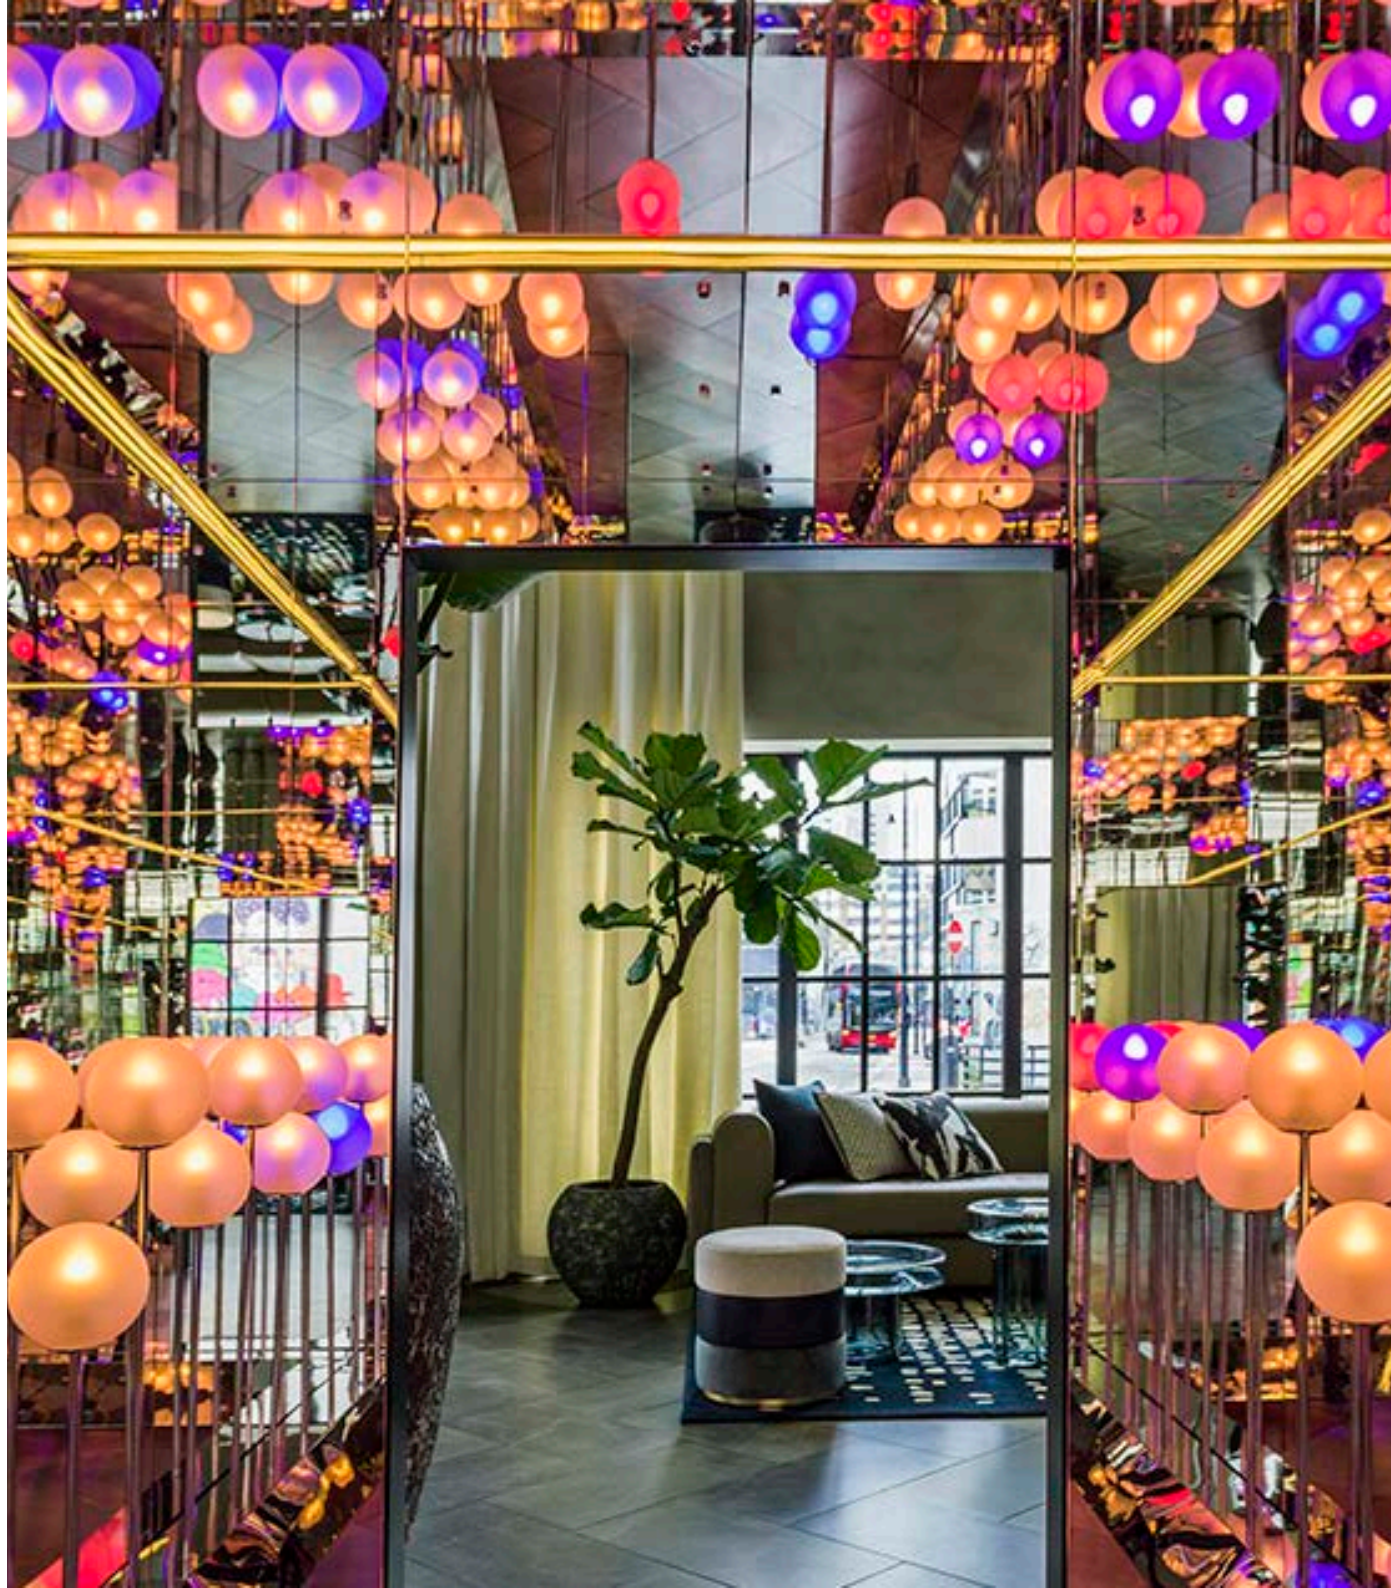

BY GODDARD LITTLEFAIR

MONDRIAN SHOREDITCH

London, England

The Mondrian in Shoreditch is a testament to custom lighting design, featuring bespoke lighting installations that elevate the hotel's contemporary aesthetic. A standout feature is the custom lighting piece in the mirrored corridor, where frosted globes are mounted on brass rods, creating a wonderland-esque experience. These frosted globes, reflected in a spectrum of vibrant colours, add depth and a dynamic visual element to the space.

This intricate design not only provides functional illumination but also enhances the hotel's unique, modern atmosphere. The collaboration with the design team ensured that every detail was meticulously planned and executed, resulting in a stunning, cohesive lighting solution that perfectly complements the luxurious interior of the Mondrian Shoreditch.

BY ITALIAN SOLUTIONS

CUSTOM CHANDELIER

Hong Kong

In a luxurious private residence in Hong Kong, custom two-tier chandeliers serve as the focal points in both the living and dining areas, exuding both grandeur and refinement. These custom pieces feature an elegant design with three bulbs on the inner, upper arms, and six on the wider, lower arms. Each bulb fitting includes a small brass dish reminiscent of a wax-catcher on a candle holder, adding a touch of vintage charm.

The bulb holders are mounted on brass arms that connect to a central hub. This hub is suspended by gracefully arcing brass arms that extend up to the ceiling mount, creating a visually captivating structure. The antique brass finish of the chandeliers complements the sophisticated décor of the residence, making them statement pieces without overwhelming the space.

HILTON BRIGHTON

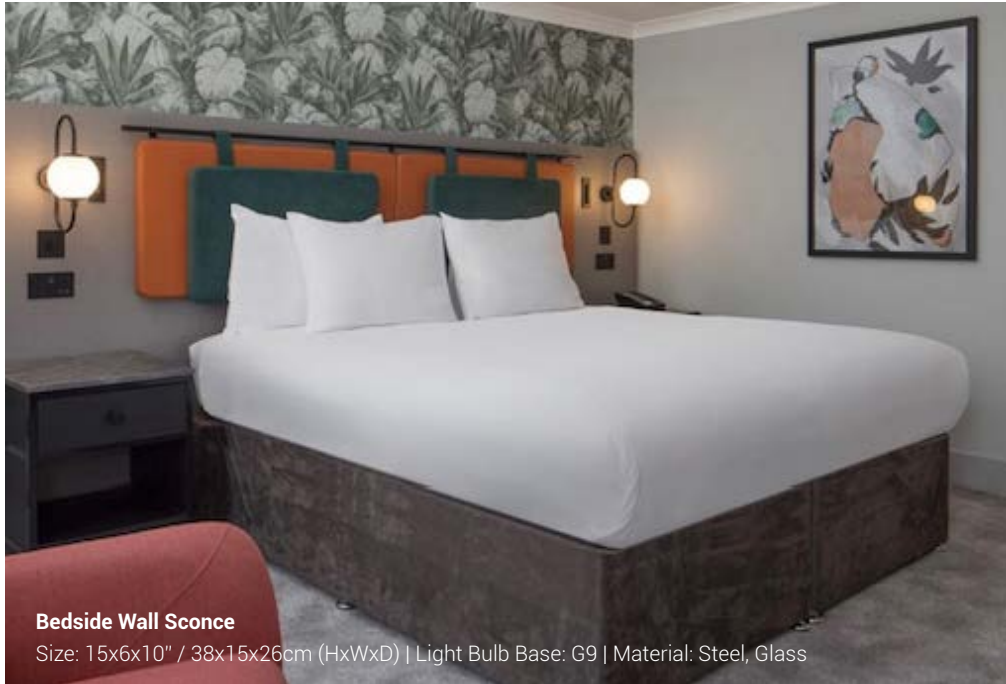

Brighton, England

The Hilton Brighton showcases custom lights with matte black brass supports and opal glass spheres, creating a clean, modern vibe. The floor lamp features three glass globes, one extending from the main support and two at either end of an angled crossbar, adding a sleek touch that complements the hotel's interior.

The table lamps echo this aesthetic, with a glass globe on a square brass arm, blending straight matte black lines with gentle opal glass curves, enhancing the room's sophistication.

Bedside lights have opal glass spheres held by two arms forming a tight oval, meeting the globe's top and bottom. This consistent design language creates a cohesive and stylish look, tying together the décor and providing a welcoming environment for guests.

Bedside Wall Sconce

Material: Brass, Fabric

BY CENTRAL DESIGN STUDIO

HILTON PUCKRUP HALL

Tewkesbury, England

Two of the standout custom lighting fixtures in this project are a three-arm wall sconce and a large copper linear fixture suspended above the breakfast buffet area.

The three-arm wall fixtures are designed with elegance and symmetry in mind. Each brass arm bends gracefully to support a conical shade, giving the appearance of three separate lights projecting from the wall. This design not only provides ample ambient light but also complements the creamy walls, black-pine-green sofa, and brown leather chairs, adding a sophisticated touch to the space.

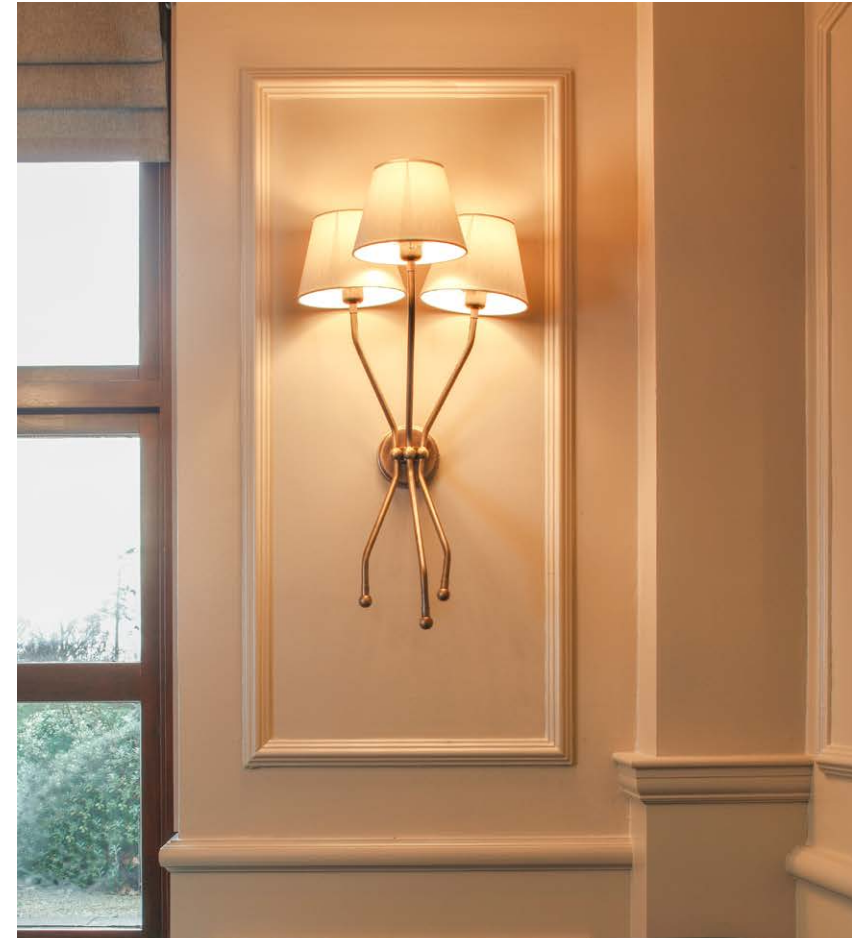

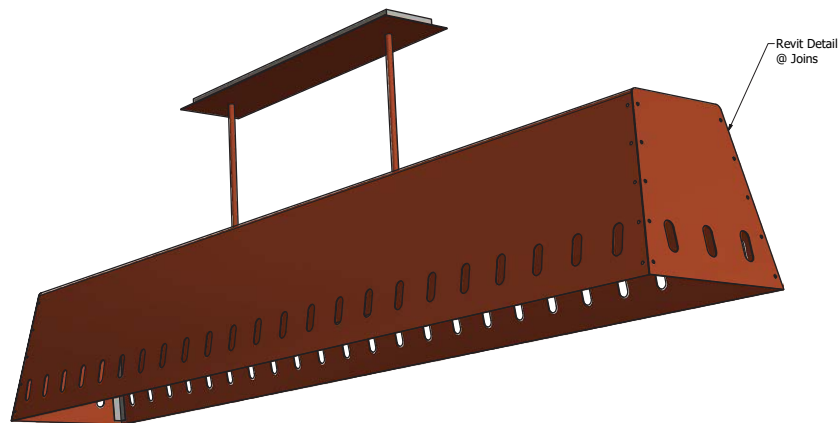

The large copper linear pendant is another key feature, shedding plenty of light onto the breakfast buffet. Its design includes regular decorative vents around the perimeter of the shade, allowing light to diffuse beautifully. The copper finish perfectly matches the warm tones of the wooden furniture, while contrasting nicely with all other elements.

Linear Copper Pendant

Size: 12x118x12" / 30x200x30cm (HxWxD) | Light Bulb Base: E26 / E27 | Material: Copper

Wall Sconce

Size: 37x18x20" / 95x46x51cm (HxWxD) | Light Bulb Base: E26 / E27 x3
Material: Brass, Fabric

LISEBERG

Gothenburg, Sweden

For the Liseberg project in Gothenburg, Sweden, the lighting installation exudes strong Izakaya vibes, creating an inviting and friendly atmosphere. This unique cluster of lights draws heavily from traditional East Asian design, featuring a variety of stylistic elements that contribute to a rich and eclectic ambience.

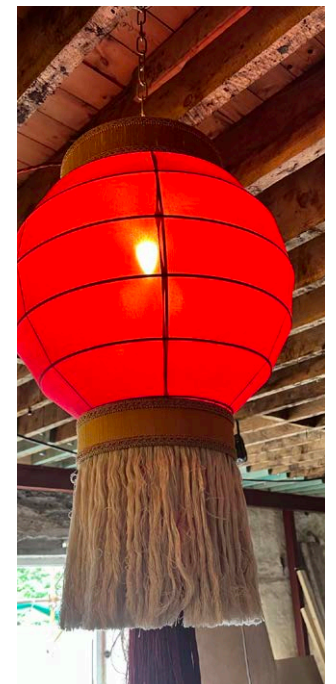

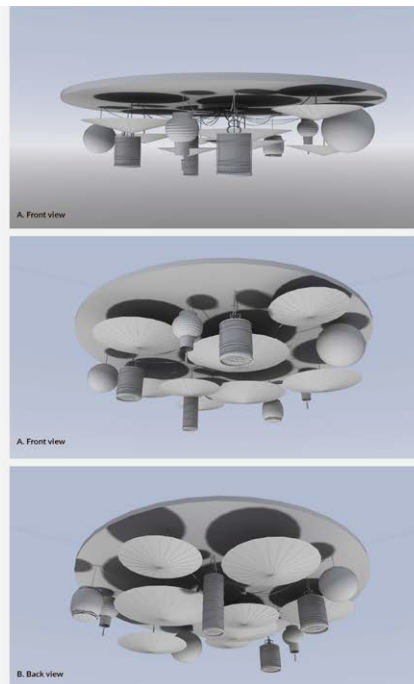

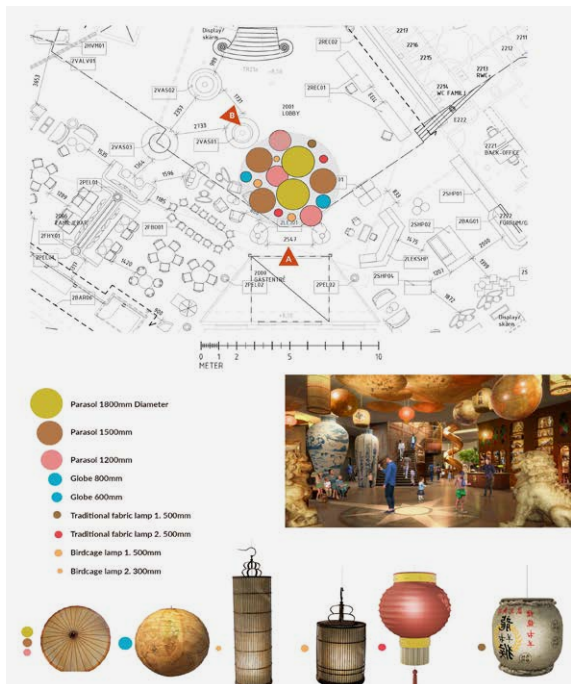

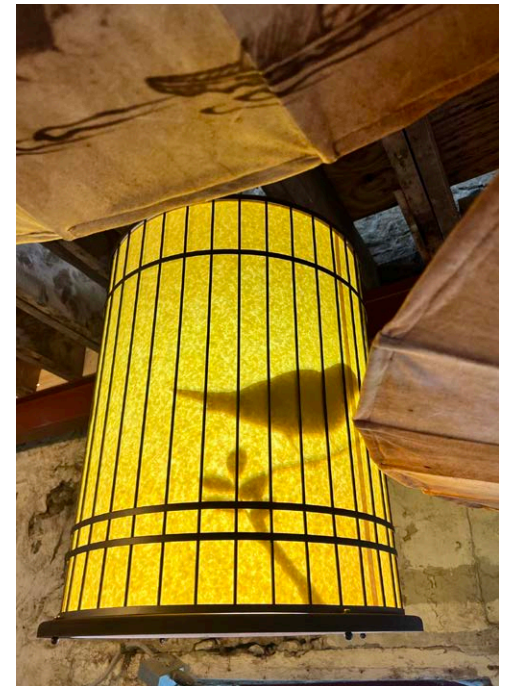

Central to the design are the paper parasols, each hand-painted with images of birds, foliage, and fish, evoking the serene beauty of Asian art. These parasols create a tranquil environment reminiscent of traditional Asian outdoor settings, adding a touch of cultural authenticity.

This harmonious blend of elements results in a captivating and atmospheric lighting display, perfectly suited for the vibrant and lively setting of Liseberg, inviting guests to experience the warmth and friendliness of an Izakaya-inspired environment.

Chandelier

Size: 20ft / 6m (Diameter) | Light Bulb Base: E26 / E27 | Material: Steel, Brass, Fabric

BY ADI STUDIO

TITANIC HOTEL

Belfast, Northern Ireland

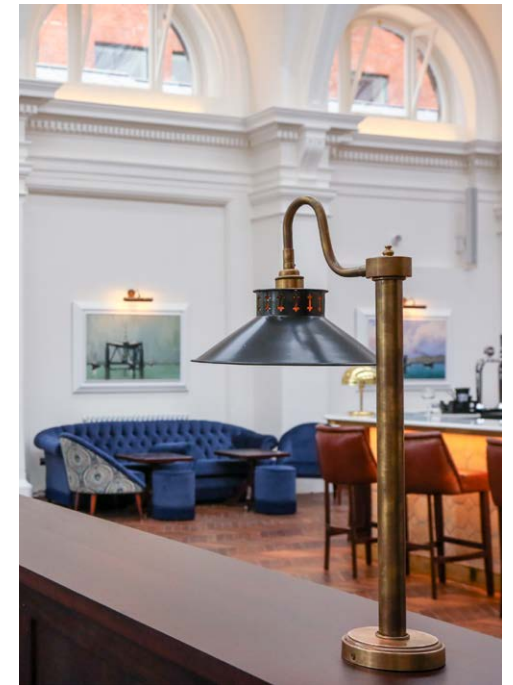

The Titanic Hotel in Belfast showcases lighting that reflects its maritime heritage. Custom fixtures throughout the hotel evoke early 20th-century elegance and industrial charm, honoring the RMS Titanic's legacy. In the main dining and lounging areas, chandeliers with rope detailing and exposed bulbs create a nautical ambience. The ropes drape elegantly, adding texture and interest, while vintage-style bulbs provide a warm, inviting glow that enhances the sophisticated yet relaxed atmosphere.

Additional nautical-themed lights include pulley-style wall fixtures and brass-finished table lamps with dome shades. The wall sconces offer focused task lighting and contribute to the overall aesthetic. The brass table lamps provide soft, ambient light, aligning with the historical theme. Combined with the hotel's décor and artifacts, these fixtures create a cohesive and immersive experience, paying homage to Belfast's shipbuilding history and the iconic Titanic.

Rope Pendant

Light Bulb Base: E26 / E27 x5 | Material: Brass, Jute Rope

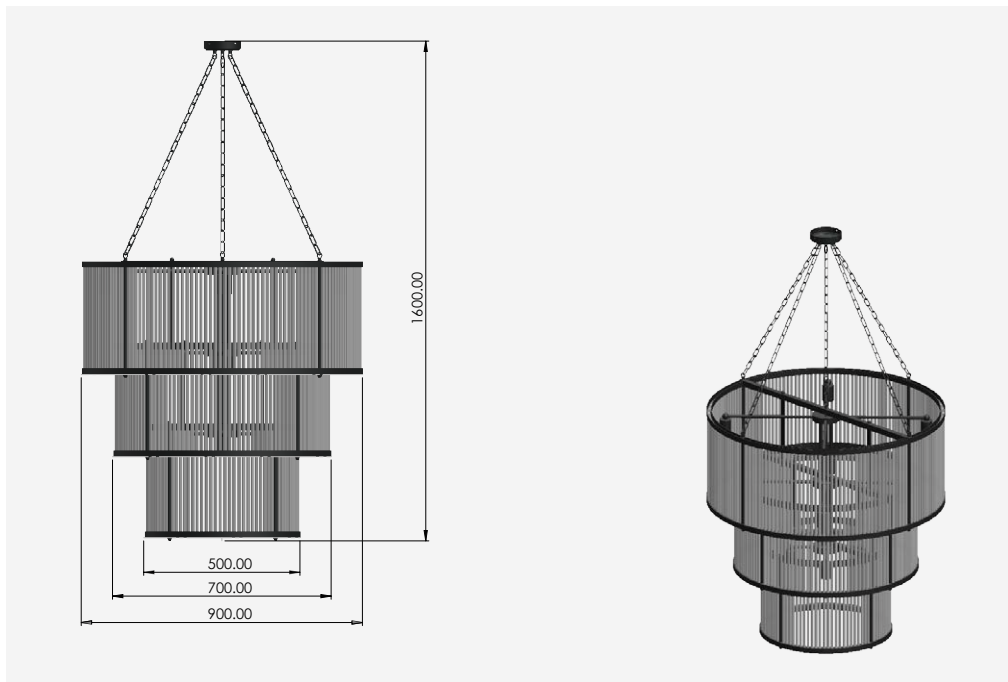

VAGABOND HEATHROW

London, England

In the vibrant setting of Vagabond Bar and Kitchen at Heathrow Airport, custom lighting plays a central role in creating an inviting atmosphere. The three-tier chandeliers, composed of glass rods held in place by black rings, diffuse light beautifully, adding a touch of elegance and sophistication. These chandeliers not only illuminate the space but also become focal points, enhancing the overall aesthetic of the bar and kitchen area.

Complementing the chandeliers, a series of pendant lights with prismatic shades are arranged organically across the entranceway. These prismatic shades catch and reflect light in a manner that harmonizes with the chandeliers, creating a cohesive lighting design.

BY JABOC INTERIORS

63RD + 1ST

Glasgow, Scotland

63rd & 1st cocktail and food bar achieves a sophisticated yet inviting atmosphere through a meticulously curated selection of opal glass light fixtures. The design integrates ceiling-mounted single globes and stunning chandeliers, each comprising of seven globes on satin brass arms, to create a cohesive and elegant lighting scheme.

The single globe lights are strategically positioned across the ceiling, offering a soft, diffused glow that enhances the space's ambience. Meanwhile, the chandeliers serve as striking statement pieces, providing both visual interest and warm, ambient light.

In the bar area, the lighting fixtures are arranged in a grid-like pattern, aligning with the wooden ceiling paneling to ensure both functional brightness and visual satisfaction. This arrangement is perfect for task lighting while maintaining a harmonious design.

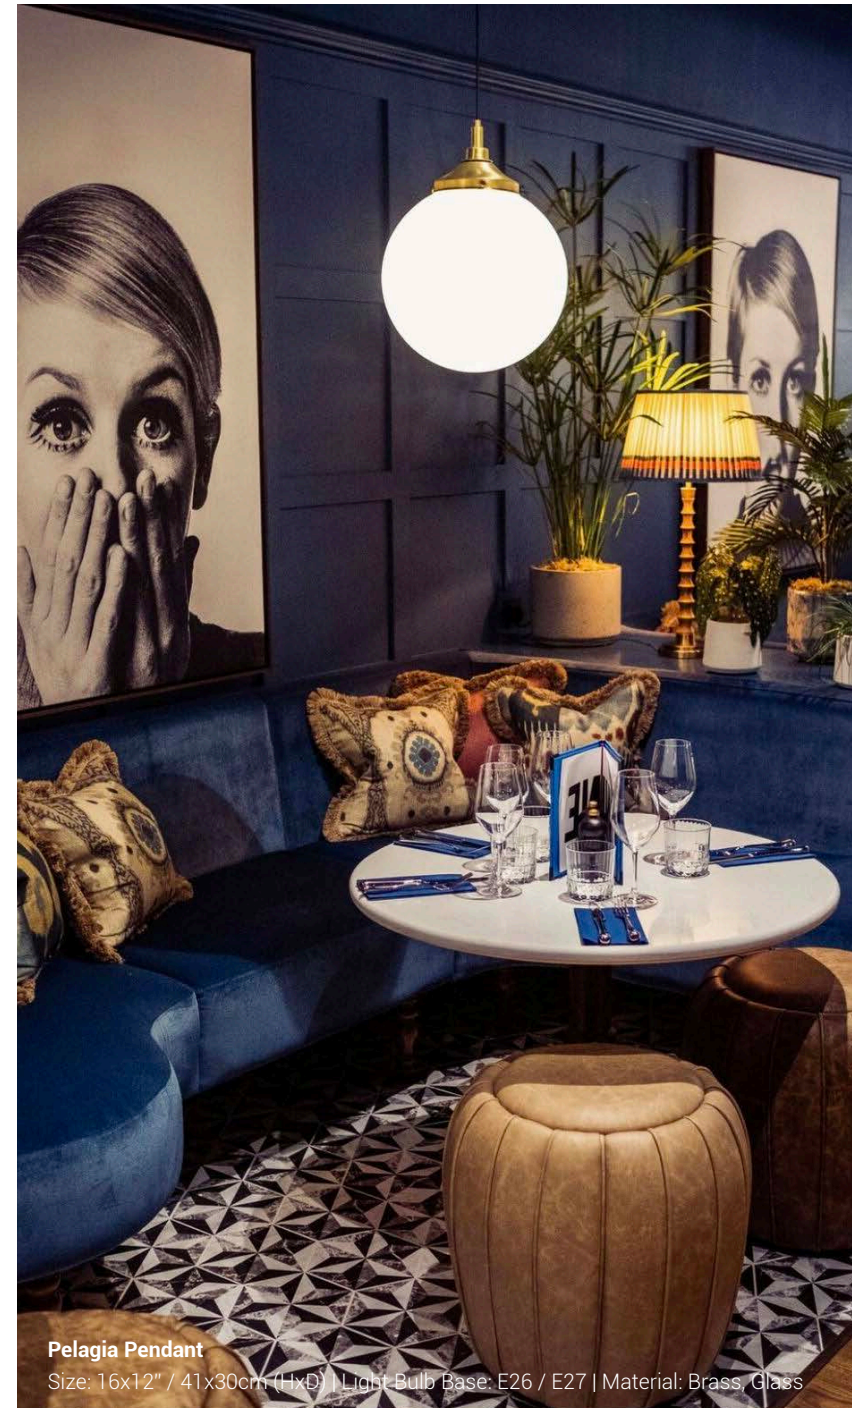

Chandelier

Size: 31x39" / 80x100cm (HxD) | Light Bulb Base: G9, x7

Material: Brass, Glass

Pelagia Pendant

HOXTON

Amsterdam, Netherlands

In the Hoxton Hotel in Amsterdam, our custom lighting solutions take center stage, enhancing the chic and contemporary vibe of the establishment. The primary fixture is a custom chandelier featuring an intriguing design of opal glass globes. These globes are mounted on a geometric framework of brass rods, arranged symmetrically to create a visually captivating structure. The chandelier's antique brass finish adds a touch of vintage elegance, perfectly complementing the hotel's sophisticated interior design.

The opal glass globes emit a warm, diffused light, creating an inviting ambience throughout the space. The brass framework provides a sleek, modern contrast to the soft glow of the globes, ensuring the fixture is both stylish and functional. This unique combination of materials and design elements reflects the sophisticated yet relaxed atmosphere of the Hoxton, making the chandelier a key feature in the décor.

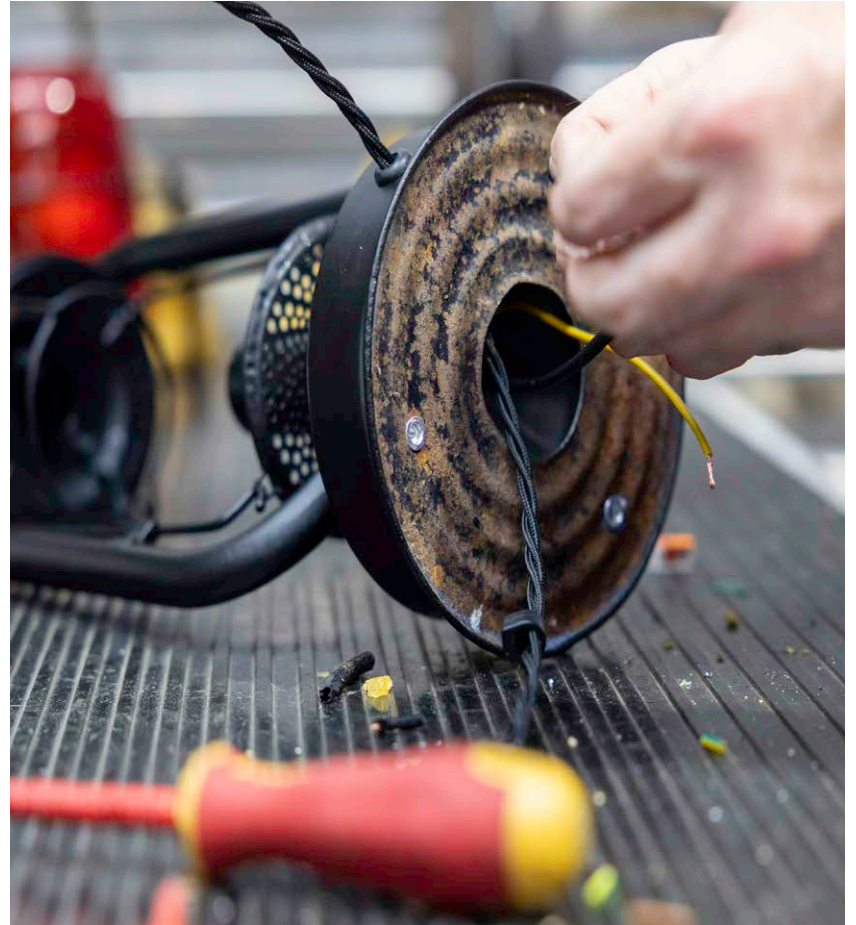

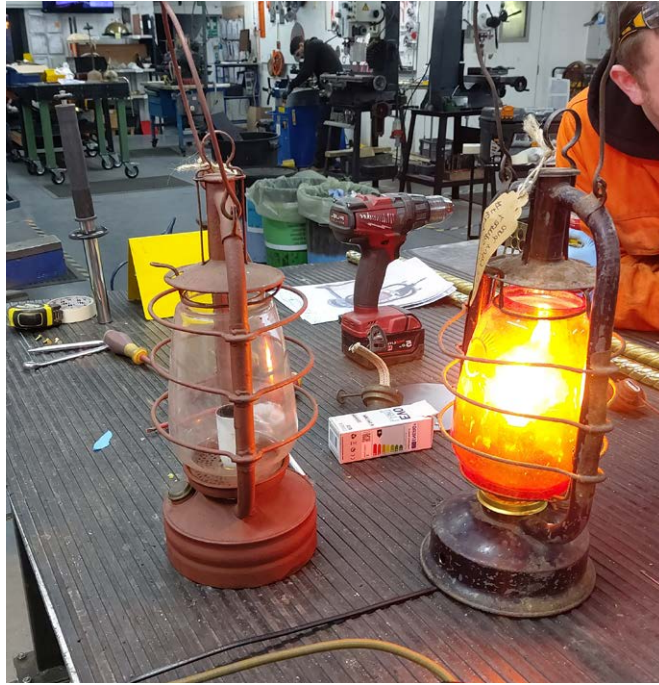

HURRICANE LANTERNS

Restore and Refurbish

This project involved the meticulous restoration of vintage hurricane lanterns, transforming them from their rusted and worn state to beautifully restored pieces. The original lanterns were carefully disassembled, cleaned, and any rust was removed. The metal frames were then repainted, and the glass components were cleaned as new. Rewiring was also carried out to ensure the lanterns are safe for use. During the restoration process, each component was carefully handled to preserve the lanterns' original charm while enhancing their durability and functionality.

The restored hurricane lanterns retain their historical integrity while being revitalized to serve as both functional and decorative lighting pieces. These lanterns now feature a fresh, clean look with vibrant colors, making them suitable for both modern and traditional settings. This restoration project showcases our dedication to preserving the historical value of vintage items.

STANDARD PRODUCTS

As well as our ability to manufacture one-off bespoke pieces, we have over 860 products in our standard range. All of our products are made-to-order in 2-3 weeks.

Each product can be customized in terms of color finish, cable length, glass type, plug type, etc.

As standard, many of our products are suitable for damp and wet environments. If not, we can customize most light fixtures to be made suitable for these environments.

We showcase a small selection of standard products in the subsequent pages that illustrate the style and quality we strive to achieve.

CERTIFICATION

Our products are UL certified for the United States and Canada, ensuring they meet stringent safety and quality standards set by Underwriters Laboratories.

This certification guarantees that our lighting fixtures comply with rigorous safety and performance criteria, providing you with reliable, high-quality lighting solutions that adhere to internationally accepted safety standards.

By choosing UL certified products, you can be confident in the safety and reliability of our lighting fixtures for both residential and commercial applications.

UL Certified: The UL symbol means the product, after a series of testing, meets the UL nationally recognized Standards of Safety. UL is an American non-profit organization dedicated to public safety and Mullan Lighting is proud to have the majority of its products UL Certified.

SASO: The Saudi Standards, Metrology and Quality Organization (SASO) is a standards and conformity authority in Saudi Arabia. Goods being imported into Saudi Arabia must be accompanied by a Certificate of Conformity (CoC). This certification is available on request.

CE Mark: The CE mark is a mandatory conformity marking for certain products - including light fixtures - sold within the European Economic Area (EEA) and indicates the compliance with EU legislation of a product. It is also found on products that are manufactured in the EEA but sold outside the EEA and is therefore an internationally recognizable symbol of compliance to EU legislation regarding product safety, health, quality and environmental protection.

UKCA: The UK Conformity Assessment (UKCA) mark is a UK product marking required for products being sold in Great Britain (England, Wales and Scotland). It covers most products that previously required the CE mark.
